

ALL QUIET AT SPRINGFIELD BUT TROOPS WILL REMAIN

Governor Pattison Will Put The City Under Martial Law if Saloons Are Re-opened

Or Withdraw All Troops and Let Civil Authorities Take
the Consequences—Brakeman Davis is Barely Alive
—More Rioters Given Stiff Fines and
Imprisonment.

Columbus, March 2.—Governor Pattison will place Springfield under martial law, if Mayor Todd yields to the pressure being brought to bear to allow the saloons to reopen. Either this or the troops will be summarily withdrawn, leaving the civil authorities to take the responsibility for the consequences. Todd telephoned Adjutant General Hughes that the saloon keepers were pressing for the privilege of reopening their places. General Hughes replied: "The moment you allow the saloons to reopen, I will withdraw the troops, or place the town under martial law." Everything was quiet today.

Springfield, O., March 2.—Mark M. Davis, the railroad worker, whose shooting by negroes caused the riots, is still alive but very weak, at the city hospital.

"We are just sitting here waiting for our boy to die," said O. E. Davis, his father, of Columbus. He and his wife were crying bitterly. Davis is rapidly getting weaker. Death is but a question of a short time.

Springfield, O., March 2.—The state troops appear to have the situation here under control, the lawless apparently being overawed. Minor depredations marked the passing of the night, there being several attempts made to fire negro residences, which efforts were foiled by the timely arrival of militia. As a precaution, Colonel Ammel has posted two machine guns and a company of troops at the court house and jail and the entire square is cut off. An effort was made to secure automobiles to carry troops from one section of the city to another when needed, but not enough could be had and wagons have been provided.

Arthur Ancil, a member of the Xenia military company, was hit in the head by a brick said to have been thrown by a rioter and fatally hurt. His assailant made an improvised slung shot of a piece of brick wrapped in a handkerchief. Two more companies of state troops from Piqua are held in readiness for service here, but the present outlook does not indicate that more will be needed, as the backbone of the riot seems to have been broken effectually.

The fact that the situation is no longer regarded as serious is evidenced by the announcement that Colonel Ammel had relieved the three local companies, leaving only the Urbana and Xenia companies on guard. This decision was reached at a conference held between Colonel Ammel, Mayor Todd and other officials.

Thirty young men were arraigned in police court charged with rioting. Five of these were given workhouse sentences, while the others were bound over.

Citizens Meet.
A meeting at which 300 prominent citizens and business men were in attendance was held at the Commercial club rooms, at which steps were taken to organize a citizens' league to combat crime and prevent a recurrence of trouble. N. H. Fairbanks, a brother of Vice President Fairbanks, presided at the meeting, and resolutions were adopted asking the legislature to raise the liquor license to \$1,000 and recommending other reforms. It was the sense of the meeting that non-enforcement of the laws over a long period of years was the cause of the outbreaks that have occurred on this and former occasions. City Court Judge Miller was severely criticized in some of the speeches.

Edward Dean and Preston Ladd, the negro suspects, tell different stories concerning their experiences at Springfield. Dean said: "Ladd and I are not partners. We never met until Monday noon, and on Monday night we were not together. He had a girl, and so did I. My girl and I were going to a dance and stopped by the 'Jungles' to get some whisky. As I started from the door a fight began. I got mixed up with the crowd, but I did not cut anybody. I did not go near the railroad yards, and I did not know

anybody was shot until the next morning." Ladd said: "Dean and I had been drinking whisky in an alley together. We went to the saloon together. I do not know how the fight started. Then the bunch jumped on me and I ran; I don't know which way I left the place, but a policeman later found me in a railroad yard. I did not cut anybody and I did not have a gun. I don't know anything about the fight, only that they beat me up." Under heavy guard, Dean and Ladd were brought from Dayton and taken before Mark Davis, who identified Dean as the man who shot him. Davis said he was not sure of Ladd.

Dayton Officials Alert.
Dayton, O., March 2.—Concurrent with the report from Springfield that the death of Davis would lead to relentless pursuit of his murderer, a number of strange men have been noted on the streets here. They have stopped citizens to ask for lodging places and have invariably inquired whether any railroad men frequented there. The police, the sheriff and the militia are on the alert for an outbreak.

MORE RIOTERS SENTENCED.
Springfield, March 2.—Nine more rioters were sentenced today, making a total of fourteen that have thus far been punished. Fines of \$50 and costs with commitment to the Xenia workhouse until paid, were imposed by Police Judge Miller. All were found guilty of disorderly conduct. Those charged with rioting demanded jury trials and John McCutcheon the first arraigned will be tried Monday. The trials of eight others will follow rapidly.

SUITS FILED
Against the McCurdys and Other Former Insurance Officials.
New York, March 2.—Suits already have been instituted by the trustees of the Mutual Life Insurance company against former President Richard A. McCurdy, former General Manager Robert H. McCurdy and the firm of Charles H. Raymond & Co., former general agents of the Mutual, according to an announcement made by the board of trustees. The suits were begun some time ago on the advice of Joseph H. Choate.

EXTENSION OF TELEGRAPH LINE
Bangor, Me., March 2.—The Postal Telegraph company today completed a direct connection with the Northern Telegraph company, thus adding to the system 500 miles of pole line and 150 places in the famous lumber, agricultural, hunting and fishing regions in northern Maine.

TARIFF BILL DEFEATED.
Washington, March 2.—The Senate committee on the Philippines this morning defeated the Philippine tariff bill. By a vote of 8 to 5 the committee refused to report it favorably to the Senate.

Body of Mrs. William Homan, 69, was found in the ruins of the Wilkinsport, Pa., opera house, which was destroyed by fire.

DOUBLE FUNERAL OF NEGRO'S VICTIM

Suppressed Excitement at Logan May Result in Lynching of Ed Darby—Who Shot Two Men.

Nelsonville, March 2.—The double funeral of Robert S. Butts and James W. Bridgewater, the two young men who were shot to death by Ed Darby, colored, at New Pittsburgh, last Sunday, took place from the M. E. church in this city Thursday afternoon. The two white hearses, driven abreast, bearing two pearl gray caskets, were followed to the station by a large concourse of people that filled the streets from curb to curb and packed the special train. The interment took

place at Green Lawn cemetery, two miles east of this city.

Both young men were related to people prominently connected with the coal interests of the Hocking Valley and numbered their friends by the hundreds. The surrounding mining towns sent large delegations.

The feeling against the negro, who shot the two men, while suppressed, was intense and may yet crystallize into a movement to avenge the murder by lynch law. The fact as proved by the autopsy, that both were shot in the back has fomented the bitter feeling, and a leader is all that is lacking. It is declared, to precipitate a crisis at Logan, the county seat of Hocking county, where Darby is in jail.

FIRE SWEEPS RICH LANDS

Salina, Kan., March 2.—A prairie fire swept thirty square miles of the richest farm lands in Rice county, resulting in damage estimated at \$50,000. It has been reported that two children lost their lives in the flames, but this has not been verified.

REPORTS OF ELECTIONS IN PHILIPPINES

Are to the Effect That the Natives Elected Provincial Officials, Without Disorder.

Washington, March 2.—Governor General Ide cabled the war department from Manila an account of the outcome of the Philippine elections. These provincial elections being in a way educational for the Filipinos, who are unused to suffrage in any form, the results are watched with the keenest interest by the war department. Governor Ide's dispatch says: "Not a single instance of disorder, although many ballots were required to elect in numerous instances. Have confirmed all elected except three suspended for investigation, charged with bribery and intimidation."

ROCKEFELLER —IS A PITIFUL CHARACTER

Says Ida M. Tarbell—He is a Monument to a False Idea and a Wrong Purpose.

Kansas City, Mo., March 2.—"Missouri's attorney general has, I think, gained a very important point in his case against the Standard Oil company. In my opinion, he has done more to bring out in evidence the methods of the Rockefeller monopoly than any other attorney general."

These were the words of Ida M. Tarbell, the historian of the Standard Oil company, in an interview here. "In writing my history of Standard Oil," continued Miss Tarbell, "I spent a great deal of time searching court records for facts. In no instance did I find as conclusive evidence as has been brought out in the outer suits. For John D. Rockefeller I have a deep pity," added Miss Tarbell. "He is today a pitiful character. He stands a towering monument to a false idea and a wrong purpose. Immensely wealthy in worldly goods, he is a pauper in the good will and the charitable thoughts of his countrymen. We might nearly say he is without a country, without a flag, without a home."

TENNY'S DEATH WILL NOT AFFECT BOXING

San Francisco, March 2.—A canvass of the members of the board of supervisors and the police commission reveals the fact that the death of Harry Tenny, the young prize fighter, as a result of a terrible beating received in his match with Frank Neil Wednesday night will not affect boxing contests scheduled for the future. All those interviewed took the view that Tenny's death resulted from an unfortunate accident and did not indicate that boxing is particularly dangerous.

SUIT TO OUST GROCERY TRUST

Columbus, O., March 2.—Attorney General Ellis announced today that he would bring suit to oust the wholesale grocers trust from its charter in this state. The suit will be begun in the Circuit court of Franklin county.

RATE BILL WILL PASS

Opponents of Hepburn Measure Admit Defeat

DOLLIVER SPOKE FOR BILL

STATEHOOD PHILIPPINE TARIFF AND OTHER MEASURES DOOMED

According to a Member of the Steering Committee—Proceedings in the House and Senate.

Washington, March 2.—President Roosevelt's real attitude on rate legislation is still a matter of argument. Within the last day or two a number of the President's friends started out to elucidate his position in order to set at rest conflicting rumors set afloat, charging him with "vacillating," "taking water" and "changing front."

"There can be no misconception of what the President wants," said one of his friends this morning. "His demand from congress may be epitomized in one sentence, 'an effective rate bill containing a minimum ground for a court review which will hold water in the supreme court.' If the President were certain the Hepburn bill as it stands, would be upheld by the Supreme court, he would be against any amendments, but it is likely to fall if it contains no provisions for a court review. He is willing to have them inserted to save the measure. If the President's bill is knocked out by the Supreme court he will continue the fight to secure government control of railroad rates, and the sooner the railroads accept the situation the better off they will be."

Washington, March 2.—Opponents of the railroad rate bill are almost ready to admit that the measure will be passed by the senate practically as it came from the house. It is admitted that they can not hope for any assistance from the president in getting an amendment for judicial review of orders of the interstate commerce commission. The president has made this clear to Senators Crane and Spooner. The only hope left to the opponents of the measure is in the Democrats. They have not definitely determined what the party position will be toward such an amendment, but it is admitted that more than half of the minority favor passing the bill exactly as it came from the house of representatives. The task of lining up the senators on this subject is proceeding daily, both factions being active in this respect. It is believed that by the time the bill is taken up it can be determined whether there is a possible chance for an amendment. If there is not the opponents unhesitatingly say they will make their speeches and record their votes against the measure and lend their assistance in bringing about an early vote.

The railroad rate bill for several days has been regarded as the one measure standing in the way of an early adjournment of congress. One of the leading Republican senators, a member of the steering committee, declared that the Philippine tariff bill, the statehood bill and the Santo Domingo treaty are all dead. He qualified his statement concerning the statehood bill by saying that he meant that the friends of the bill could not pass it without the Foraker amendment providing for the submission to the votes of the people of New Mexico and Arizona separately the question whether they should have joint statehood. A poll of the senate showed that if voted upon now the Foraker amendment would win, 48 to 10, providing the entire vote of the senate was cast.

Dolliver Spoke.
Washington, March 2.—Discussion of the railroad rate question in the senate was resumed by Mr. Dolliver, who spoke in support of the Hepburn bill. He said that the bill was intended merely to supplement the existing interstate commerce law and contended for its validity from a constitutional point of view, predicting that government ownership of the railroads would be forced upon the country if congress did not meet the present demand for regulation. Mr. Dolliver was not questioned, and when he concluded the remainder of the session was devoted to the affairs of the five civilized tribes of Indians after

the termination of their tribal relations.

Busy Day in the House.
Washington, March 2.—The house passed the army appropriation bill carrying more than \$63,000,000; also the Foraker bill, providing for the marking of the graves of Confederate dead buried in the north. Points of order made to the provisions for a cable ship for the Atlantic coast and to a ship for mine planting on the Pacific coast eliminated those provisions from the bill. The alleged powder trust came in for a severe debate and Democratic endeavor to have the government begin the manufacture of its own powder consumed some time, but met defeat both on points of order and finally by direct vote.

THREE INJURED IN A COLLISION

Pittsburg, Pa., March 2.—Three trainmen were seriously injured, several others slightly hurt and a number of passengers scratched and bruised in a head-on collision near Fayette City, Pa., between the Broadview express on the Pittsburg & Lake Erie railroad and a coal train.

MINERS' UNION MAY WAIVE RECOGNITION

New York, March 2.—John Mitchell, president of the miners' union, and a committee of seven are awaiting word today calling them to Washington for a conference with Roosevelt on the anthracite situation. Roosevelt it is known, is kept informed on every move made, and intimately acquainted with every detail of the situation. Mitchell is worried because he received no communication from Baer, acknowledging the receipts of the demands. Because of the known feeling of the operators against union recognition, it was said this morning that the miners would waive this demand for the sake of continued peace but an 8-hour day and increased wage must be granted.

DETECTIVES AND THIEVES IN PISTOL DUEL

One of the Latter Fatally Shot and a Threatening Mob Surrounds Railroad Offices.

Cleveland, O., March 2.—In a pistol duel between three railroad detectives and three men caught stealing brass journals from freight cars in the yards of the Lake Shore & Michigan Southern railroad, one of the alleged thieves, who gave his name as Frank Smith of this city, was fatally shot in the back by a detective. One of the robbers was captured. The shooting caused great excitement in the neighborhood and a small but threatening mob gathered around the officers and their prisoner. The crowd was kept at bay by a show of revolvers until a patrol wagonload of police arrived, when the railroad detectives were relieved from danger.

HOTEL GUESTS RESCUED BY THE FIREMEN

Awakened at an Early Hour They Found Escape to be Impossible by the Stairways.

Chicago, March 2.—Two hundred and fifty guests of the Park Gate hotel were awakened by the yell of bell boys and the smell of smoke at 5:30 o'clock this morning and when they left their rooms they found the halls of the five-story hotel structure filled with smoke and the center of the building in flames. Escape by means of the stairways was shut off and fire escapes furnished the only means of exit until the fire department arrived and ladders were placed to the windows.

No person was overcome by smoke or burned, according to the police reports, but many thrilling rescues were made. The fire began in the basement and was burning rapidly upward when the alarm was given. The guests of the hotel had to leave their apartments in their night robes and aside from scratches and exposure no one suffered injury. The building was erected during the world's fair and covers a city block. It has accommodations for 500 guests. Two weeks ago a fire began in the west end of the basement and burned part of the building. No cause for the fire is known.

BIG FORCE IN READINESS TO BE SENT TO CHINA

To Act With Other Powers in The Protection of Foreign Interests

Should the Necessity Arise—The Cause of the Uprising in the Nanchung is Said to Have Been the Action of French Catholic Missionaries.

Washington, March 2.—Preparations that are little short of astounding in their thoroughness have been made for the hurrying of troops to China in case of an uprising.

For two months and more highly-trained officers of the general staff have been working night and day on the problem of a Chinese campaign, and, if necessary, in a day's notice the war department is prepared to get 25,000 troops started on their way to China.

The war department has its plans thoroughly made for meeting trouble in China, and knows what troops will be called upon in case of difficulty. These plans, in the most minute detail, are in the hands of the chief of staff. Fourteen regiments of infantry will be sent from this country if there is an outbreak, four regiments of cavalry, four batteries of light artillery and the siege battery equipped with seven inch siege guns from Ft. Leavenworth.

In case of an uprising calling for troops San Francisco will be made the point of rendezvous, and the troops will be hurried under the command of General J. Franklin Bell, across the Pacific as fast as transports can take them.

The plans have been made solely with the view of having American troops act with the forces of the allied nations, whose subjects may be in danger.

The war department is advised by its experts that to act alone in making a successful advance on Peking would require the services of not less than 100,000 men, and that the dispatch of a smaller force would be to invite disaster. Should this country, however, be forced to act alone, the plans as prepared contemplate a joint movement of the army and navy to seize one of the great Chinese ports, which could be held for indemnity.

Government officials do not believe that such a seizure would have any great effect on the central government of China, which cannot be called all-powerful in imperial matters.

Mr. Rodgers, the American consul general at Shanghai in a cablegram to the state department received on Thursday says:

"Definitely known American property at Nanchang safe, refuge at Kiangling."

Sir Chenlung Liancheng, the Chinese minister, was among the early callers at Secretary Root's weekly diplomatic reception yesterday. The minister said the agitation meetings were subsiding and the situation in that section was distinctly better.

CAUSES FOR OUTBREAKS.

San Francisco, March 2.—According to William Hancock, for years a resident of China, and a commissioner of customs there, who has arrived here, the principal causes of the present unrest in southern China over the indemnity paid to foreign countries, resulting from the Boxer outrages, which occurred in Northern China, and the outrage on treatment accorded to the wealthy K'ing family of China, by a customs officer in Boston when King and his family were en route from England to China by way of this country. King and his family were treated as ordinary coolies. Things are apt to become serious before peace again reigns. In various provinces the Chinese are on the eve of a serious uprising, and it is hard to tell to what lengths they will go.

W. S. Allen, representing an American business house in Canton, says an important factor in the Chinese situation is the newspapers, which are at last alive to the general stirring of affairs throughout the world and they are becoming a powerful weapon. He thinks the whole trouble could be compromised by allowing the press access to the Philippines and Hawaii.

Victoria, B. C., March 2.—Advances and foreign outbreaks are reported in mail advices per steamer Empress of India. In Hupen province and the adjoining section of Honan province secret societies are rallying men around banners inscribed "Advance China and Destroy the Foreigners."

Missionaries of this district are jointly advising their consuls of the gravity of the situation. A Hupen correspondent of the Shanghai Mercury writes that the anti-foreign movement gains ground rapidly and is widespread. The leaders are teaching Boxer doctrine that those who fight under them against the foreigners will be made proof against injury in battle.

The capture of a leader at Lao Ho Koo in Hupen resulted in large collections of arms being found hidden in lofts, also a document proclaiming the leader of one of the greatest societies of China, emperor, and the discovery of 200 Chinese boys, all carrying arms intended for the rebels whose plans were to raid the city and march south, while similar outbreaks were to take place in the districts. Martial law was declared and the missionaries of Lao Ho Koo and vicinity were taken to the viceroys' yamen for protection. Captain Keller, an American employed as chief of police by the Chinese government at Chansia, Hunan, was murdered by two Greek adventurers, who shot him when he sought to arrest them for illegally selling arms. The murderers were pursued by Chinese soldiers and captured near the city gates, which were closed to prevent their egress. One committed suicide and the other was shot by the soldiers.

CHINESE IN AMERICA
Encourage the Anti-Foreign Riots in the Canton Districts.
Seattle, Wash., March 2.—After spending 35 of the best years of his life at Canton, China, as Baptist missionary Rev. E. Z. Simmons returned to America Wednesday on the Dakota, totally blind. He is en route to Nashville, Tenn. He is determined to return to China, whether his sight is restored or not.
Dr. Simmons says the recent efforts of the government to establish a public school system, to which the people are opposed, particularly in the teaching of the English language in the schools, is responsible for the unrest and the anti-foreign feeling. Foreign residents of Canton, he says, are living in constant fear of a violent outbreak. He declares the strength of the boycott at Canton is due to the fact that it is being encouraged by Chinese in America, the greater part of whom came from Canton province.

NOT ASSASSINATED.
Hongkong, March 2.—Advices from Peking are that there was no basis for the report that the Dowager was dead. She is stated to be in good health.

Magistrate Dead.
Shanghai, March 2.—The Nanchang magistrate who was wounded during a dispute with Catholic missionaries recently resulting in a riot and the killing of a number of Catholic and Protestant missionaries, is dead.

A BILL
To Legalize Lynching Has Been Presented to the Mississippi Solons for Consideration.

Jackson, Miss., March 2.—Senator McClarin, of Sharkey, wants to establish a differential in courts between murder and lynching and to make interesting changes in the law governing these crimes. He has introduced a bill on the subject, the details of which, the punishment, wholly within the discretion of the jury in a large majority of instances, he no punishment at all, or probably a small fine and brief imprisonment. In other words, such a bill would almost legalize lynching.

MORTGAGE GIVEN BY LINGAFELTER

In Favor of and to Secure the Homestead Building Association

Is Void and of no Effect, is the Allegation in a Petition Filed in Common Pleas Court Friday By Trustee in Bankruptcy.

Edward W. Crayton, as trustee in bankruptcy of the estate of James F. Lingafelter, has commenced suit in the Common Pleas court against the Homestead Building and Savings company, George P. Webb as receiver of the Homestead Building and Savings company, and James F. Lingafelter. The plaintiff says that on September 6, 1904, there was filed in the United States District court of the Southern District of Ohio, Eastern Division by Albert A. Stasel, as receiver of the Newark Savings Bank company of Newark, O., a petition to have the defendant, James F. Lingafelter, adjudged an involuntary bankrupt, and that on March 25, 1905, James F. Lingafelter was adjudged a bankrupt and that the plaintiff was duly appointed and qualified as trustee in bankruptcy of the estate of James F. Lingafelter and is now such trustee.

Plaintiff says that George P. Webb has since 1904, and is now the receiver of the Homestead Building and Savings company duly appointed and qualified by the court in the case of Lewis P. Schaas against the Homestead Building and Savings company as such receiver to collect and receive all the assets of the association and wind up the affairs of the same.

Plaintiff says that on May 11, 1904 at 10:55 o'clock a. m., there was delivered to the Recorder of Licking county, Ohio, what purports, and which the defendant, George P. Webb as such receiver, claims to be, a mortgage deed, signed and acknowledged by James F. Lingafelter and Mary J. Lingafelter, his wife, dated the 11th day of May, 1902, conveying to the defendant, The Homestead Building and Savings company nineteen parcels of real estate, including 180 shares of bank stock of the Newark Savings Bank company of Newark, O., and six shares of the Newark Gear Works company, formerly known as the Baltimore Bent Wood Works company of Newark.

That George P. Webb as receiver claims the mortgage to be a good valid and preferred lien upon the property therein described, to secure the sum of about \$50,000, which he claims was owed and due from James F. Lingafelter to the Homestead Building and Savings company before and since the giving of the mortgage.

That James F. Lingafelter was long before, and at the time, it is claimed the mortgage deed was made, and ever since then, has been indebted to the Newark Savings Bank company and to Albert A. Stasel, as its receiver, the sum of \$60,000, with interest from 1904, which amount has been presented to and fully and duly found and allowed by the referee in bankruptcy proceeding as a true, correct and proper claim due to A. A. Stasel a receiver of the Newark Savings Bank company.

Plaintiff says that the mortgage deed was and is not a good, valid or preferred lien or claim upon the property described, but is null and void as a lien or preferred claim upon the property, or the proceeds of the sale thereof, for the following reasons, to wit:

First. That the mortgage deed was not delivered by James F. Lingafelter and Mary J. Lingafelter.

Second. That the mortgage deed was not authorized to be placed upon the records by James F. Lingafelter and Mary J. Lingafelter.

Third. That no sum was ever found or ascertained to be due from James F. Lingafelter to the Homestead Building and Savings company, or George P. Webb as its receiver, as required by the conditions contained in the mortgage deed in order to make a lien upon the property described there in, or authorized the mortgage deed to be placed upon record.

Fourth. The mortgage deed, if ever made, was not made and delivered to the grantee or mortgagee named therein, but to others not named therein, to be held in trust to secure Homestead Building and Savings company for a preexisting debt claimed to be due from James F. Lingafelter to it, and when James F. Lingafelter was indebted to the Newark Savings Bank company and other creditors and was wholly insolvent.

Fifth. The mortgage was made by James F. Lingafelter and Mary J. Lingafelter in contemplation of insolvency.

Sixth. The mortgage was made by James F. Lingafelter and Mary J. Lingafelter with a design on the part of all parties thereto to prefer the Homestead Building and Savings company as one of their creditors for a pre-existing debt to the exclusion in whole or in part of the Newark Savings Bank company and others, as the creditors of J. F. Lingafelter.

Seventh. The mortgage was made by James F. Lingafelter and Mary J. Lingafelter with intent on their part to hinder, delay, or defraud the creditors of James F. Lingafelter, who then owned the property, in the collection and payment of their debts and claims against James F. Lingafelter.

That by reason of the things above stated, the mortgage deed was and is null and void, and operated as an assignment and transfer of all of the property described, and the same inured to the equal benefit of all creditors of James F. Lingafelter, in proportion to the amounts of their respective demands, under the statute and laws of Ohio.

That the mortgage deed was and is not a good and valid mortgage deed, nor has it any preference upon the property described, for the reason that the same was not handed to the recorder of Licking county, O., for record, and was not placed upon record, for more than one year after it was made, and was kept from record in order to keep the same a secret and the credit of James F. Lingafelter good, and enable, and which did enable him to create further and larger indebtedness with other persons and creditors.

That the mortgage deed was not handed or delivered to the Recorder of Licking county for record until the 11th of May, 1904, and within four months of the filing of the petition in bankruptcy against James F. Lingafelter and in which bankruptcy proceeding he was adjudged a bankrupt and that by the laws of Ohio the mortgage deed was required to be, and did not take effect and was null and void until it was delivered to the recorder of Licking county for record, that the mortgage was not given for a present fair consideration, but to secure a debt past due, and at the time the mortgage was made, and at the time it was delivered to the recorder, J. F. Lingafelter was, has been and now is, insolvent, and the effect of the enforcement of the mortgage transfer will be to enable the Homestead Building and Savings company, one of its creditors, to obtain a greater percentage of the debt than A. A. Stasel, receiver, and a greater percentage than any other creditor of James F. Lingafelter whose debts are of the same class. That the Homestead Building and Savings company's officers and agents, knew, or had reasonable cause to believe, that it was intended by the giving of the alleged mortgage to give it a preference.

That the mortgage created no lien upon the personal property described herein, for the reason that the same never had any affidavits made thereon, and was never filed in the recorder's office of Licking county, Ohio as required by the statutes of the State of Ohio and was and is for that reason null and void.

Plaintiff asks that the mortgage deed be set aside and declared null and void as a preferred lien upon the right, title, and interest of James F. Lingafelter upon the property described, so that the same may be sold and distributed equally among all the creditors of James F. Lingafelter as provided by law, and for all other relief. Flory & Flory and A. A. Stasel attorneys for the plaintiff.

Grand Jurors Drawn.

Grand jurors for the April term of the Common Pleas court were drawn Friday morning by Clerk Hulseby and Sheriff Redman as follows:

George W. Drake, Fallsbury twp. J. S. Axline, Lima twp. Amos B. Grove, Newark twp. D. B. Cooperider, Granville twp. Go. George Meek, Fallsbury twp. H. H. Simmons, Harrison twp. H. A. Bailey, Newark city. F. M. Brooke, McKean twp. Stewart Barnes, Mary Ann twp. James Patterson, Hopewell twp. M. G. Porter, Fallsbury twp. Charles W. Bourner, Newark city. Sherman Cunningham Harrison twp. Sherman G. Reed, Newark city. Andrew Connell, Lima twp.

In Common Pleas.

W. J. Henderson vs. Frank G. Warden, an action to recover for work and labor; motion made to answer overruled in part and sustained in part. Kibler & Montgomery; Norpell.

The case of George W. Garrison vs. State of Ohio was argued and submitted to the court. Garrison was convicted in a certain proceeding before David A. Bricker, mayor of Lima, on a charge connected with the

sale of intoxicating liquors. The fine was fixed at \$75 and costs. Plaintiff in error says there is error in the record; that the mayor was disqualified from trying the case for the reason that he had employed and paid certain witnesses in the case on whose testimony alone the conviction was had; that the judgment is against the law, and the evidence; that error was committed in refusing him a jury trial. The court took the case under advisement. Daugherty; Doty, Fitzgerald.

Telephone Moved.

The county commissioners have moved the telephone that was in the basement court room, which is not now used, to the office of Chas. C. Cooper, court stenographer. The call is 2 rings on 18. This will be a great convenience to the members of the bar in reaching the stenographer.

Real Estate Transfers.

Cecelia Stedman and John Stedman to Kate Conlon and Alice Conlon inlots 1365 and 1366 in John Q. Evans' addition to Newark, \$800.

William C. Snelling and wife to Artemus W. Claggett and wife, the east half of the west half of inlots 3512, 3515 and 3518 in Martha Edwy's Mt. Pleasant addition to Newark, \$1100.

Samuel Scholer and wife to W. A. Elliott, 32 acres in Eden township, \$1000.

Margaret A. Davis and Samuel A. Davis to Wm. C. Snelling and Nettie Snelling, real estate in Newark township, \$500.

Clifford Sturgeon and wife to John H. Richards, lot 3432 in Woodside addition to Newark, \$500.

Archibald C. Davis and Kate E. Davis to Leroy F. Tenney, real estate in Newark, \$250.

John A. Chilcote and Anna Chilcote to Susanna Lingafelter, real estate in Newark, \$1500.

The Tallmadge Realty company to Wm. S. Berry, lot 147 in the Tallmadge Place addition to Newark, \$1 and other considerations.

Elias O. Edwards and wife to Hugh Lotten real estate in Bennington township, \$270.

Ida May Gallagher and John S. Gallagher to Carl Gundlach and Katherine Gundlach, inlot 2382 in John McCune's addition to Newark \$2300.

Julius Juch and wife to Jesse Wise real estate in Newark, \$100.

Claim Capital Impaired.

New York, March 2.—The Herald says: "Called upon by the state department of insurance to make good a serious impairment of its capital, stockholders and directors of the Bankers' Life Insurance company of New York have held important meetings, the sequel of which will be that within a few days the men who compose the present management of that company will retire and successors will be named by interests opposed to them. The Bankers' Life has nearly \$25,000,000 of outstanding insurance on its books. Examinations of the Bankers' Life by the state insurance department last December disclosed an impairment of its capital to the extent of something like 50 per cent."

Order to School Inspectors.

Peoria, Ill., March 2.—Judge Worthington, who sentenced N. C. Dougherty to the Joliet penitentiary, issued an order ordering the eight school inspectors of Peoria who have a year yet to serve to appear in court on March 12 and show cause why they should not be ejected from office on the ground of illegal election. The ruling of the court followed the presentation of a petition signed by prominent attorneys. It has the effect of opening up the entire question of the liability of the Peoria National bank and the bondsmen of the treasurer and has thrown into consternation a score of wealthy men who up to yesterday believed they would be immune from civil liability.

Nervous Worn-Out

If you are in this condition, your nerve force is weak—the power is giving out, the organs of your body have "slowed up," and do their work imperfectly. This failure to do the work required, clogs the system and brings distress and disease. When the nerves are weak the heart is unable to force the life-giving blood through your veins; the stomach fails to digest food; the kidneys lack power to filter impurities from the blood, and the poisonous waste remains in the system to breed disease. Nerve energy must be restored. Dr. Miles' Nerveine will do it, because it strengthens the nerves; it is a nerve medicine and tonic, that rebuilds the entire nervous system.

"Several years ago I was all broken down. I was nervous, worn-out, could not sleep, and was in constant pain. I devoted for months, and finally the doctor said he could do nothing for me. I began taking Dr. Miles' Nerveine, and I began feeling better, and I became strong and healthy, and now weigh 170 pounds."

H. C. CUNNINGHAM, 108 Elmworth Ave., Albany, Pa.

Dr. Miles' Nerveine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

Miles Medical Co., Elkhart, Ind.

Bowser and His Bargain

Captures a Marie Antoinette Bedstead at Auction and Sends It Home.

FAILS TO DELIGHT MRS. B.

Troubles Ensnare—Its Disgusted Owner Descends to Cellar and Makes Kindling Wood of It.

(Copyright, 1906, by McClure, Phillips & Co.)

AT 3 o'clock the other afternoon as Mrs. Bowser was getting ready to go downtown and do a little shopping Mr. Bowser made his appearance. If there hadn't been a smile on his face she would have been frightened. As it was, she started back and exclaimed:

"What! You home at this hour! I hope there is nothing wrong?"

"Nothing wrong, my dear," he replied.

"Is business slack at the office?"

"Not so very, but I had reason for wanting to come home at this hour. I'll have a surprise here for you directly."

"What kind of a surprise?" she cautiously inquired.

"The other night you were saying that you wanted to get rid of that three-quarter bedstead in the spare room and get a full size in its place."

"And you've gone and bought one?"

"That's the surprise, my dear."

"But—but I wish you hadn't. I saw a brass bedstead yesterday that just

WITH A BEDSTEAD AS BIG AS A BILLBOARD, suited me, and I was going down today to ask the price of it. Where did you buy it?"

Just Happened Along.

"Well, I happened along to where an auction was in full blast, and I stepped in for a minute. This bedstead was going so cheap that I bid and got it. What are you putting on such a long face about?"

"I—I wish you hadn't. I don't want a bedstead bought at auction. Is it all brass?"

"All brass! No; it's all wood. It's just the finest piece of mahogany you ever saw, and there's a history attached to it. There it comes now."

An express wagon and two men came driving up to the house with a bedstead as big as a billboard. To get the head and foot boards out and into the house Mr. Bowser had to take hold with the two men, and when the pieces were leaned up against the wall in the back parlor they looked like the sides of a house. Mrs. Bowser was upstairs crying while the unloading was going on. When it was finished Mr. Bowser called her down and said:

"You talk about bedsteads, but if I haven't got something here to make all the neighbors turn green I'll eat my hat. Think of the mahogany in it when it takes two men to lift either piece! That wood will take a polish so you can use it as a mirror. While the bedstead is now fully 200 years old, it will last hundreds of years longer. Any furniture man will tell you that it is worth all of \$150 as a piece of furniture, to say nothing of the sentiment connected with it, but how much do you suppose I paid for it?"

"I am sorry that you ever paid 2 cents for it!" she replied as she choked back a sob.

"What's that? Are you kicking already? By thunder, but I might have known it would be so! Here I go and buy a bedstead worth \$150 for \$15, and you are shedding tears over it!"

"But it's a—wooden bedstead."

"And what of that? Hasn't every king and queen in Europe slept on a wooden bedstead? You have read about Charlemagne, I presume? Well, Charlemagne gave this bedstead to Marie Antoinette for a bridal gift when she married—what's-his-name Marie slept on this bed for fifteen years. She was sleeping on it the night before she was taken out and thrown over a precipice. All this, and yet you kick."

History Somewhat Mixed.

Mr. Bowser had his historic facts somewhat mixed up, but he was very much in earnest in his admiration of the souvenir.

"Well, are you going to grouch around all day or are you going to praise me for finding such a bargain?" he finally asked.

"I thought you understood that ev-

erybody had iron or brass bedsteads these days," replied Mrs. Bowser.

"But did Charlemagne have an iron or brass bedstead?"

"They were not made in those days."

"Did Marie Antoinette sleep on an iron or brass bedstead?"

"Probably not, but I wish she had to sleep on this old thing now. How on earth are you ever going to get it upstairs? Even when you get it up there it will take up all the room in the bedroom."

"Don't you worry about those trifles. My idea is that in buying furniture we might as well buy something of historic interest. If I had more money with me today, I should have bought a bureau belonging to Queen Elizabeth."

"I wish you hadn't had enough to buy this bedstead. If I'd known you were going to do such a thing, I'd have bought a brass one yesterday out of my own money. If any secondhand man would buy it—"

He Is Obdurate.

"What! Sell this Marie Antoinette bedstead to a secondhand man? Never! His touch would be pollution. No secondhand man should have it for \$200."

"But no one would give you even a dollar. There is no sale whatever for wooden beds."

"But I'm telling you that this was Marie Antoinette's bedstead!" shouted Mr. Bowser as his anger began to rise.

"And who cares for that?" retorted Mrs. Bowser.

"Look here, woman, my name is Bowser. I am at the head of this house. I run things. I discover that we want to throw out a three-quarter bedstead and replace it by a full size. I drop into an auction room and find a historic piece of furniture worth \$200 going for \$15 and send it home. You kick. You even tell me that I couldn't sell it again for a dollar."

"And neither can you. You have just thrown away \$15, and \$15 more put with it would have bought the bedstead I wanted."

Mr. Bowser walked down the hall and put on his hat and overcoat.

"Where are you going?" she asked.

"Down to the nearest furniture store to sell this bedstead for \$25. You can get a brass bedstead on which Captain Kidd has slept if you want to."

After a walk of two blocks he turned into a furniture store and said to the proprietor:

"I've got a mahogany bedstead up at the house that Marie Antoinette used to sleep on. It's worth every cent of \$200, but you can have it for \$25."

"I wouldn't give you 25 cents," was the reply.

"Do you mean that?"

"Certainly. If you have got a furnace in your house, you had better split the bedstead up for firewood."

"But it once belonged to Marie Antoinette."

"Or your grandmother?"

Mr. Bowser glared at him and wanted to call him a scoundrel minded wretch, but, choking back his temper, he walked out and along to the establishment of a secondhand dealer.

"I have got a wooden bedstead," he began, but got no further when the dealer interrupted him with:

"Then keep it."

"But it's a mahogany bedstead."

"Might as well be plue."

"And it once belonged to Marie Antoinette."

"Or Susan B. Anthony. I'll draw it away from your house for \$3, but not a cent cheaper."

Mr. Bowser was red in the face when he passed out and along to another shop, and there was a menace in his voice as he asked:

"Do you want to buy a mahogany bedstead?"

"Not on your life!"

"Why not?"

"For the same reason that I don't want to buy any last year's cabbage heads."

"Will you take it and draw it away?"

"Not much. You might try a wood-yard man."

Mrs. Bowser was upstairs crying again when Mr. Bowser returned. She heard him clattering down the cellar stairs and clattering up again. Then came a war whoop and blows of the ax. Whoop followed whoop and blow followed blow, and she gave him fifteen minutes before coming down. She found him standing amid the wreck and ruin of that Marie Antoinette bedstead, and the look on his face was fairly fiendish. They looked at each other for a minute, and then he dropped the ax and folded his arms and said:

"Well, madam, I hope you are satisfied now!"

M. QUAD.

The Point of View.

Articus—Awfully simple, isn't it? Criticus—Now! Simply awful!—New York World.

Cheap Enough.

"Isn't it ridiculous," began Henpeck, "to say 'talk is cheap' when as a matter of fact—"

"Oh, I don't know," interrupted New-itt. "I can take you to a place where you'd get dead loads of it and a shave thrown in for 10 cents."—Catholic Standard and Times.

Sammy—I—aw—have an idea, doncher know, and— Gladys—Excuse me, but are you quite certain of your ability to distinguish between ideas and wheels?

At Plymouth Church.

Tonight at Plymouth Congregational church, Rev. W. E. Cadbury will preach on "The Price of a Man." The large chorus is giving great help to the service with their splendid singing. A good sermon last evening with a clear and earnestly delivered message on "Provisional Piety." You are cordially invited to attend tonight and bring your friends. Services begin at 7:15. 2d

Fine Monument.

One of the finest monuments that has been placed in Cedar Hill cemetery for some time has just been placed over the grave of the late John J. J. by the firm of Guy & McGonagle monument dealers of this city. The monument is surmounted by a beautiful statue of a child. It has been on exhibition in the window of Guy & McGonagle for some time and which was imported from Italy by order of Mrs. J. J. 2d

At First Methodist.

The work at the First Methodist Episcopal church continues with rapidly increasing interest. Last night's meeting was the best of all. So far fourteen were forward and made confession of faith. More than one hundred have come forward to the altars of the church during the progress of the meetings. The evangelists are in great favor with the people and will continue their work over the Sabbath. Services tonight at 7:15. 2d

Fined for Assault.

James Cain, a young man for some time employed by the B. & O., appeared in Squire Lee S. Lake's court this afternoon and pleaded guilty to a charge of assault and battery preferred against him by Frederick Hubbuch. The crime charged was said to have taken place at the store of Maple & Walker on Saturday night from 6 to 8 o'clock for the purpose of receiving subscriptions for stock and collecting the same. 2d

on Wednesday last. Cain was fined \$5 and costs by the court, which was paid and the case dismissed.

Homer Garber Here.

Homer Garber, who has been traveling during the winter with the Garber-Howe concert company under the direction of the Midland Lyceum bureau of Des Moines, Iowa, stopped in Newark Friday to visit relatives on his way to Chicago. Mr. Garber, who has many friends in Newark, is down on the program under the head of "Banjo, Saxophone and Magic." He is a skillful performer and is making a success of his work. 2d

HENRY BOWMAN'S FUNERAL.

The funeral of Henry Bowman, who died at his home, 22 Bournier avenue at 4:30 a. m. Thursday, will take place from the home at 1:30 Saturday afternoon, interment in Cedar Hill. 2d

Mr. Bowman, who was 60 years of age, has suffered for some time from heart disease, recently becoming rapidly worse, dying Thursday. Besides a wife, the deceased leaves two sons, Clarence and Harry, also five brothers and one sister. 2d

The deceased was a very highly respected resident of the city, and was a veteran of the Civil war, being a member of Co. I, 195th O. V. I. 2d

CARD OF THANKS.

We desire to express our thanks to our friends and neighbors for their kindness and help during the sickness and death of our daughter, Mrs. Frank Search. Mr. and Mrs. John Duley. 2d

Discretion.

"Why did you insist on only \$50,000 a year as your salary?"

"Because," answered the high financier, "as soon as people hear a hundred thousand mentioned they get suspicious. It is better to keep the figure marked down a little."—Washington Star. 2d

The Proper Place.

"People are just crazy to get to that place."

"I don't see anything very attractive about it. What kind of a place is it, anyway?"

"It's an insane asylum."—Cleveland Plain Dealer. 2d

Too Effective.

"Do you believe in advertising?"

"No, sir; I advertised for a wife once."

"And didn't you get her?"

"Yes, I got her."—Philadelphia Ledger. 2d

Fish May Serve.

New York, March 2.—Stuyvesant Fish, president of the Illinois Central railroad, and until recently a trustee of the Mutual Life Insurance company, and a member of the Mutual's investigation committee, probably will head a policyholders' movement in that company for investigation and reform. It was practically settled today that Mr. Fish will lead a committee of policyholders of the Mutual Life in the United States and Europe. Invitations to prominent policyholders in all parts of the United States were mailed and many acceptances are expected by those in charge of the movement. The proposed committee will work independently of the so-called governors' and Lawson committee. It is planned to demand a thorough investigation of the company. 2d

Balance Paid State.

Indianapolis, Ind., March 2.—Following the approval of the report of John E. Reed, receiver for the securities owned by David E. Sherick, ex-auditor of state, by Judge Allen, \$25,078.21, or the balance due the state, was paid into the treasury by ex-Governor Durbin, who represented Mr. Sherick's friends. Sherick is slated to appear in the criminal court Monday morning to answer to charges of embezzlement. 2d

UNCLE JOE'S GALLUSES.

Why Speaker Cannon Declined to Preserver Them For Posterity.

The home knit galluses recently given to Speaker Cannon by W. W. Russell of South Carolina, through Representative Allen, are to be handed down to posterity unworn by the distinguished statesman for whom they were made, says the Washington correspondent of the Kansas City Times. The speaker prizes them too highly to wear them. He has written a letter to Mr. Russell acknowledging the gift, in which he says:

"In material and in name I recognize them from my familiarity with them in the early days when home-spun galluses were the order, made and knit by our mothers and in almost universal use."

"I shall put the galluses in my cabinet rather than wear them, because I desire to preserve them for my grandchildren, that they may see what we wore in my early days."

Col. Wm. F. Cody (Buffalo Bill), has been officially appointed instructor to the balloon companies of the naval engineers at Aldershot, Eng. 2d

William Latour, a photographer of Joplin, Mo., is believed to be the only survivor of the troupe which played with Wilkes Booth just previous to the assassination of Lincoln. Mr. Latour cherishes a program of Booth's last appearance in St. Louis. 2d

Governor Beckham appointed Judge J. L. Dorsey of Henderson to try the cases of Judge James Hargis, former Sheriff Callahan and others, charged with the murder of J. B. Marcum, an attorney, at Jackson, Ky. 2d

ABOUT PEOPLE

W. E. McCurdy has gone to Richmond, Ind.

Mrs. W. H. Baker spent Wednesday in Columbus.

Mr. Alfred J. Wilson has returned home from Hamilton, Tenn.

Mr. Ed Braddock is lying very ill at his home on West Church street.

Mr. and Mrs. J. R. Kellenberger have gone to Columbus for a few days.

Mrs. A. H. Roberts and her guest Mrs. Rauch, spent Thursday in Columbus.

Mrs. H. F. Johnson of Cleveland is visiting her cousin, Mrs. Ed O'Neil on Allen street.

Rev. C. W. Wallace will go to New Concord and Noranda to conduct services on Sunday.

Mrs. Arthur Hayes and little daughter took supper with Mrs. Theo. Goff Wednesday evening.

Mr. J. H. Snider of Thornville, is the guest of his son, Mr. C. L. Snider of North Eleventh street.

Mrs. Scott Vanner is lying very ill at her home on Central avenue. Mrs. Vanner is under the care of Dr. Robb.

Miss Clara Henning, who has been at the city hospital the past four weeks is now at the home of Mrs. C. S. Cada.

Mr. and Mrs. T. M. Brooks and Mrs. John Schrock attended the funeral of their uncle, Mr. T. C. Carver of Jersey Thursday.

Mrs. Will Davis, who has been visiting her parents on North Fourth street, has returned to her home in Zanesville.

Word comes from El Paso, Texas, that Mr. C. W. Remington, who went to the southwest last fall for his health, is much improved.

Attorney John M. Swartz has returned from a business trip to Saginaw and Mt. Pleasant, Mich., where he was engaged in looking up a title to certain real estate.

Mr. and Mrs. Sereno Haynes, of Granville spent Wednesday with their daughter, Mrs. Theo. Goff, of Pine street. Mr. Haynes, who has been ill for the past three months, is able to be around again, but is quite feeble.

Mrs. F. H. Browne of Wallace street, who was called to Springfield by the sudden death of her brother, Mr. T. Edward Harwood, editor of the Springfield Gazette, has returned home.

Manager Richards of the Palace roller rink in East Newark has announced another big masquerade which will take place at the rink on the evening of March 14. The last masquerade was a huge success and for this reason, the management decided to arrange for another as soon as possible. A big crowd filled the floor again Thursday night and the surface was in excellent condition.

Says Mr. E. H. Everett Concerning the Well Recently Struck on Farm Near Black Hand.

There has been no change in the conditions at the oil well which was struck on the Everett farm, at Black Hand on Tuesday, other than that published in the Advocate of Wednesday. Mr. Everett says that it is very difficult to estimate the capacity of the well, but that it is thought it is flowing in the neighborhood of five to seven barrels of oil per day. Mr. Everett also says that the outlook is very encouraging, and that the well will probably be shot tomorrow, when it is thought the flow will be greatly increased. People living in the vicinity of Black Hand, and in fact all men all over the country are greatly excited over the strike. It will mean a boom for Licking county.

OUTLOOK FOR OIL IS ENCOURAGING

Says Mr. E. H. Everett Concerning the Well Recently Struck on Farm Near Black Hand.

There has been no change in the conditions at the oil well which was struck on the Everett farm, at Black Hand on Tuesday, other than that published in the Advocate of Wednesday. Mr. Everett says that it is very difficult to estimate the capacity of the well, but that it is thought it is flowing in the neighborhood of five to seven barrels of oil per day. Mr. Everett also says that the outlook is very encouraging, and that the well will probably be shot tomorrow, when it is thought the flow will be greatly increased. People living in the vicinity of Black Hand, and in fact all men all over the country are greatly excited over the strike. It will mean a boom for Licking county.

RESORTS RAIDED WOMEN FINED

Mayor McCleery Enforces the Law and Puts in Effect the Regulations He Has Made.

The most recent order of Mayor McCleery, which notified the owners of resorts on Walnut and Railroad streets of the salute existing regarding the selling of intoxicating liquors was ignored by two places and when the time was up Thursday night, two saloons in connection with houses of questionable repute, were found in full operation.

Captain Bell ordered a raid on the places and the proprietresses, with several inmates and visitors found lodging in the city prison over night. The women in charge of the resorts were charged with selling liquor in a house of ill fame. In police court

Friday morning Mayor McCleery assessed a fine of \$50 and costs against the names of two, Mrs. Dora Buck and Miss Nellie Brown. The Brown woman runs the place at 145 Railroad street, considered by the police as one of the worst resorts in town. Numerous shooting affrays have occurred there, the Freiner-Osborn tragedy and the shooting of Policeman Charles Higgins taking place in front of this resort. The inmates were each fined \$5 and costs.

The city prison entertained another distinguished guest Thursday night in the person of John Wertz, a son of the late Mrs. Frances Wertz, who was murdered at her home in McKean township, and a cousin of the late Edward Wertz, who is awaiting trial on the charge of committing the crime. Wertz happened in the city Thursday and inquired too freely from the flowing bowl. He was allowed to go home but refused to accept the advice and Officer Zorned locked him up. He was fined \$5 and costs.

PAID INTEREST, NOT GRATUITY

ON HAMILTON COUNTY FUNDS DEPOSITED ON BANKS

Was the Testimony of Several Witnesses in the Exow Hearing at Cincinnati Friday.

Cincinnati, March 2.—The State Senate committee, examining into the affairs of Cincinnati and Hamilton county resumed its session today. Attorney Roettinger, for the committee, made an explanation of the laws governing the depositing of county funds. His purpose, he said, was to enlighten the people of Cincinnati because some local newspapers had misled them into the belief that there was no statute under which County Treasurer Hynicka and his predecessors, could have placed county funds in a bank and collected interest for the county rather than for themselves. Several witnesses connected with banks testified that they paid John H. Gibson, a former county treasurer, interest on county funds. It was sent to him in envelopes by a messenger. Charles G. Steadman, vice president of the First National, testified to the same effect. "It was not a gratuity we paid, it was interest, straight out interest," said Steadman. 2d

A CLEVER PERFORMANCE.

Mrs. Temple's Telegram, at the Auditorium last night played to a fair sized house, and to say the work of the company was clever, would be stating it mildly. The production, which is one of those clean, lively farce comedies with Harry Conner appearing in the role of Wilson, the pompous and talkative butler, kept the audience in a constant roar of laughter by the extremely amusing predicaments in which each member of the cast finally becomes involved. Deserving of special mention, almost before Mr. Conner, comes the good acting of William Lamp, who as Frank Fuller, attempts to assist his friend Jack Temple out of a compromising position. In fact every member of the cast was a trifle above the standard of the class usually seen in similar productions. 2d

Representative Charles B. Landis was re-nominated for the sixth time by the Republicans of the Ninth Indiana congressional district.

FOR RENT.

For Rent—Two modern houses. Inquire at 158 Granville street. 2-2

For Rent—A suite of three rooms, on second floor, just east of interurban waiting room. W. S. Weiant. 243

For Rent—Small office No. 25 South Second street, also a five room house in South Newark (Teva). Reasonable rent. Enquire No. 29 North First street, or C. C. 3412, West Main street. 243

For Rent—New modern 8-room house, desirable location Small rent to right parties. Phone 365. 243t

For Rent—One apartment in Henrietta building, six rooms; bath, heat, hot and cold water. Inquire of S. W. Hayes, Henrietta building. 243t

For Rent—Three furnished rooms for light housekeeping, near the Jewett Car Works and the White Co. Inquire at 75 Grant street. 243t

For Rent—Modern 7-room house with bath, location good, possession at once. M. J. 1142, 1114 North Second street, B. 243t

Springfield Riots.

On Wednesday night there was more mob violence at Springfield, despite the presence of troops, and several more houses were burned and a number of negroes beaten. Yesterday, however, the authorities appear to have gained control of the situation. A large number of rioters were arrested, tried and sent to the workhouse. More should be apprehended and properly punished. There is apparently a deplorable state of feeling in the place among many residents. On the other hand, many good citizens are aroused to the damage which is being done by the rioters. The happenings of the last few days ought to open the eyes of the people of Springfield to the necessity for making a radical change in the character of the government and of every good citizen insisting upon the maintenance of order and the enforcement of the laws.

It was just a little short of criminal to house a lot of boys in a tinder box building like that dormitory at Kenyon college. And yet, hundreds of other schools have just as inflammable sleeping quarters for the charges.

It isn't the rich man, it isn't necessarily the successful man who is the happiest. It's the man who has always kept square with his own conscience.

A Milwaukee woman has sued for \$75,000 damages because her husband was persuaded to leave her. What a gem of a husband he must have been.

If the legislature doesn't hurry up and pass that anti-treat bill, the treasurer's money will all be spent and there will be no use for the law.

CIVIC IMPROVEMENT

With the approach of spring would it not be wise for parents to encourage the teachers in their attempts to instill in the children a love for the beautiful?

If necessary, pay your boys and girls to rake and burn all the trash around the premises. The latter is good fertilizer for rose beds.

Invest in some grass seed and before a good rain permit the children to sow it. Having sown the seed the boys will be more inclined to keep their playmates and their playmates dogs off the premises in order to watch the grass spring up.

If possible apportion to each child a plot of ground in which he may plant flower seeds or vegetables. Make him responsible for the result, thereby encouraging him in his efforts. Every effort, however crude, for neatness and beauty must be encouraged, directed and in time transformed.

Parents, make it an offense, punishable by fine, for any member of your household to scatter paper to the four winds.

In all probability you can secure a box or barrel, free of cost, in which to put the pieces of paper, tin cans and garbage. You will not only be enhancing the beauty of your premises but in this day of deadly microbes, adding to the good health of your family and neighbors.

One morning last week the writer while crossing the East Main street bridge had great difficulty in dodging a lot of garbage thrown from the third story by one of the tenants of the frame building immediately east of the bridge. Had the writer been able to secure the services of the sanitary policeman that tenant would certainly have received a warning.

Newark is especially pretty in summer with its abundance of shade and

wide streets. Let us make it a "town beautiful" by our earnest efforts to preserve its natural beauties and every day add to its health, wealth and beauty by observing all the laws of health. Let us be ambitious to have it used as a fit illustration by Prof. Zeublin in his future lectures.

CONSUMPTION INCREASING

Average Now Is Four Hundred Deaths Per Day.

Does the reader of this paper realize that this very day, in this country alone, four hundred homes are each made sad by the death of a victim of consumption? Tomorrow will be a repetition of today's calamity, and so it will go on until the people come to realize the fact that a very large number of these deaths are entirely unnecessary.

Consumption is both a contagious, and curable disease in its first stages. Yet many intelligent people do not realize this fact.

As our druggist, Frank D. Hall, says, "drugs and cough syrups for bronchial and lung troubles are only palliative and do no permanent good; they may deaden the cough and stimulate the patient for a time, but they do not cure, and they have usually upset the stomach and have a bad after effect."

Eminent physicians, however, agree that when the symptoms of lung trouble first appear, if the patient will obtain all the sunshine by day, and fresh air by night possible, eat sound bread stuffs, good meat, eggs and milk in abundance, and take the best cod liver preparation to be found, they will employ the surest means known for a cure.

The undersigned will guarantee Vinol to be the best cod liver preparation. It is not a patent medicine, as everything in it is printed on the bottle, and it contains in a highly concentrated form all of the curative body-building, medicinal elements of cod liver oil actually taken from fresh cods' livers, but no oil to clog the system, upset the stomach and retard its work. Any one can try Vinol on our guarantee to refund their money if it fails to give satisfactory results. Frank D. Hall, Druggist.

IRON AND TRADE REVIEW

Cleveland, O., March 2.—The Iron Trade Review in its issue today, discussing the terms of the deal now practically closed by which the Steel Corporation acquires the immense ore properties known as the Hill lands, points out the fact that the lease officially recognizes for the last eighteen years of the period it is to run a royalty rate of one dollar per ton, which was the value set on the corporation ore holdings by Charles M. Schwab about three years ago, when as president of the corporation he included in its assets 700,000,000 tons of ore in the ground at a value of \$700,000,000. In view of the royalties then prevailing this estimate was generally criticized as much too high. The present deal shows the extent to which appreciation of the value of the necessarily limited ore deposits of the country has increased.

Iron, steel, manufacturing and shipping interests generally are of the opinion that a conflict will be averted in both the anthracite and bituminous coal fields. A symposium of views gathered from representative concerns in these industries by The Iron and Trade Review discloses practically none who believes that the threatened difficulties will not be avoided. This prospect is strengthened by the vigorous stand taken by President Roosevelt and certain commanding industrial interests against any cessation of mining. Nevertheless, precautions are being widely taken in the way of storing a sufficient quantity of coal to last for several months.

The quiet period continues in the iron market, but with inquiry generally improved and current business for spot and immediate delivery aggregating a fair tonnage. The market is holding its own remarkably well for a between season period when comparative inactivity is expected; prices are firm with prospects of remaining on the present level until the beginning of business for the third and fourth quarters. Structural materials are in insistent demand, billets are unusually scarce, specifications on merchant steel contracts are heavy and other finished lines show undiminished strength. Coke has grown more firm on the strength of threatened mining troubles. Scrap continues its downward tendency with prices decidedly lower.

Despondia is our national ailment. Burdock Blood Bitters is the national cure for it. It strengthens the stomach membranes, promotes flow of digestive juices, purifies the blood, builds you up.

It has been decided by the municipal authorities of Berlin to establish public "sun and light baths" at which first, second and third class fees will be charged.

In China metal bedsteads sell for about twice the prices they bring in the United States. They must, however be supplied with mosquito net frames to meet the demand.

IMPORTANT APPOINTMENTS BY GOVERNOR PATTISON

Are Likely to be Made Soon--Gates to be Opened for Democratic Hosts Who Have Felt They Deserve the Fruits of Victory.

Columbus, O., March 2.—There is no disguising the fact that since the inauguration of Governor Pattison Democratic impatience has been manifested at various times on account of the failure of the new executive to dispose of Governor Herrick's recess appointments and open the gates of the promised land for the triumphal entry of the hosts of Democracy who have felt that they deserve the fruits of victory. It is certain that Governor Pattison has never had the least inclination to deprive them of those fruits, and it is not his fault that the offices within his gift are not already held by Democrats. The governor's health has not admitted of his giving the consideration they deserved to these appointments. It has been proposed at various times that he might in a measure delegate the appointive power to some of his confidential, and the names of Private Secretary Houck, Chairman Garber and Secretary of the State Committee W. L. Finley have been mentioned in this connection. The governor, however, has hesitated to take this step, and so many im-

portant matters have been held in abeyance. It is now understood on what ought to be excellent authority that the important appointments will come very shortly from the governor himself. On account of his physical condition it is said that Mr. Pattison has abandoned his original intention of going over the applications of all the candidates for minor offices, but that he will now proceed to select his heads of departments and leave them in every case to appoint their own subordinates, after consultation with the governor perhaps, but not at the discretion of third persons. This may be cheering news to the waiting Democracy.

DESIRABLE YOUNG MEN

Frequently advertise for rooms and board, in a private family, thus:

Wanted—Board and room with private family by a young man, central location preferred. Address E. O., care Advocate.

In turn, if you rent rooms or take a few private boarders, the Advocate Want Column is constantly at your service. Three lines, 3 days, 25c.

THE VIRGINIAN.

"The Virginian" with Dustin Farnum and notable associate players, will be the attraction at the Auditorium on Wednesday evening. "The Virginian" has captured the public fancy more completely than any book play of recent production and its exceptional success is now stage history. Dustin Farnum in the name part has scored a tremendous personal hit by reason of his clever interpretation of Owen Wister's hero.

Fine Building Lots.

Do you know that the most desirable residence section of Newark lies between North Williams street and Linden avenue on the Cassingham and Stump addition. Cement walks, graded street, good water, dry cellars. Five to ten minutes walk to all West End factories. Within two squares of the Granville and city car lines. Had good success with this addition last year, several houses having been built. About 20 desirable lots left. Prospective buyers are invited to inspect this addition. C. E. Cochran, 666 W. Main street. 23t

AKO'S NATURAL HISTORY

THIS IS A SNAKE, AND SNAKES IS PESTS. SNAKES WAS DRIVEN OUT OF IRELAND SOME YEARS AGO AND EMIGRATED TO OTHER COUNTRIES. A SNAKE TEMPTED MOTHER EVE TO EAT A GREEN APPLE, CAUSING MUCH SUFFERING EVER SINCE. WHENEVER I AM TEMPTED TO EAT A GREEN APPLE, IT CAUSES ME MUCH SUFFERING TOO. A SNAKE'S TAIL STAYS ALIVE TILL SUNDOWN NO MATTER WHEN ITS OWNER GETS KILLED. THERE ARE TWO KINDS OF SNAKES—THOSE YOU CAN SEE AND THOSE YOU THINK YOU CAN SEE. ONCE PA SAW SNAKES THAT THE REST OF US COULDN'T AND HE SAID THEY WERE SUCH LOVELY COLORS. PA HADN'T BEEN FOND OF SNAKES SINCE. RATTLE SNAKES IS SO NAMED BECAUSE YOU GET RATTLED IF YOU SEE ONE. WHEN YOU TRY TO DO A FELLER, BUT HE DOES YOU—YOU CALL HIM A SNAKE. SNAKES WIGGLE INSTEAD OF WALK. GIRLS WIGGLE WHEN THEY WALK NOW DAYS. **ELDIE**

be transported to and fro at public expense; H. B. Mr. Thompson, authorizing the levying of taxes for the establishment and maintenance of a joint cemetery, a referendum being required and each township must vote affirmatively.

Bills passed by senate: S. B. Mr. Schmidt, providing that it is mandatory on the part of state board of pardons to notify trial judge when an application for pardon is filed; S. B. Mr. Mather, to prevent the use of fictitious names in the conduct of business; S. B. Mr. Pollock, providing a salary of \$2 a day for township trustees and regulating the number of days to serve during the year; S. B. Mr. Mahaffey, to amend the statutes so that children will not have to support parents who abandoned them in infancy; H. B. Mr. Spicer, providing that the compensation of commissioners to build court houses shall not be more than 2 1/2 per cent of the amount received from the sale of bond issue.

Ballot Bill Passed.
With little opposition, the senate passed the Espy bill, designed to make impossible the voting of a straight ticket by a single cross mark in the circle below the party emblem on election ballots. The emblem on affected, but the circle is abolished, and to vote the ticket one must make a cross mark before the name of every candidate for whom one desires to vote. This applies to state and county tickets where they are placed under the emblem in order. In cases of presidential elections the names of the presidential candidates and presidential electors are all placed upon the ballot, but a cross mark placed in the square before the name of the presidential candidate votes the ticket for the electors entire. The party emblem is left above each party ticket. In municipal elections for the municipal candidates, other than councilmen, the candidates for one office of each party are listed together under the designation mayor, city solicitor, treasurer, etc., and the voter selects from each list of candidates for the one office the one for whom he desires to vote, and places the cross mark in the square before the name. The same plan is followed in township elections. To the right of each candidate's name in these lists is printed his party. In councilmanic and school board elections there are no party designations whatever on the tickets.

Another feature of the bill is the opening it offers for independent nominations for councilmanic or school board candidates. Any person, defeated at the primaries, may have his name added to the ticket by petition under the existing law, and have an equal footing with his former opponent.

JURY

WHICH IS TRYING DR. HAUGH AT DAYTON FOR MURDER OF HIS MOTHER

Is the Most Expensive Ever Empaneled in Montgomery Co.—No Witnesses for Defense.

Dayton, O., March 2.—In the trial Thursday of Dr. O. C. Haugh, for the murder of his mother, L. G. Cook, son of H. A. Cook, the first person to reach the burning Haugh home, corrected the statement he is alleged to have made before the coroner. He said he did not say there were two beds in the south apartment, had not been occupied but 1612. He stated that the bed did not look as though two persons had suddenly jumped out of it to escape a fire.

Mrs. May Greenwood, daughter of Homer Cook, testified that she summoned help from neighboring houses early Sunday morning, when Haugh came rushing to her home yelling "Fire!"

Wm. Holtsman said he assisted in extinguishing the blaze and removing furniture. He said it was impossible to rescue the bodies of the members of the Haugh family. Others gave similar testimony. It is said that not a single witness has been summoned by the defense.

The Haugh jury is the most expensive ever assembled in Montgomery county. When all of the venues were exhausted the cost totaled \$700, and by the time the trial is completed the county's expense for the jury will exceed \$1,000.

DISCRIMINATING LADIES.

Enjoy Using Herpicide on Account of Its Distinctiveness.

The ladies who have used Newbro's Herpicide speak of it in the highest terms, for its quick effect in cleansing the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it always that itching which dandruff will cause. Newbro's Herpicide effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness; in killing it, Herpicide stops falling hair and prevents baldness. It is also an ideal hair dressing, for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit Mich.

ANOTHER DEFEAT FOR OLD DENISON

Baptists Met Their Fate For Second Time in One Week When They Met Wooster.

Wooster, March 2.—"Furious" will apply to the game of basketball witnessed at the Armory last night in which Wooster defeated Denison. The old time rivals clashed as though for life and fought like tigers, surging up and down the floor till only streaks of red and black with flying arms and legs were visible. Lineup:

Wooster—34. Denison—28.
Coupland L. F.Shoup
Good R. F.Pine
Cramer C.Livingstone
Crabtree L. G.Coe
Thompson R. G.Webber

Goals from field—Coupland 2; Good 6; Cramer 4; Crabtree 3; Pine 3; Livingston 5; Coe, Webber, Shoupe 2; Fouls thrown—Good 2; Livingstone 4; points awarded for extreme roughness—Wooster 2. Referee—Patterson. Timekeeper and scorer—Cameron.

DESPERATE FIGHT BETWEEN TWO MEN

ON A NARROW FOOTWAY HIGH ABOVE THE GROUND

Resulted in the Death of One of the Combatants, But Not From a Seemingly Inevitable Fall.

New York, March 2.—In a midair fight along the narrow footway of the East River tunnel superstructure, in which a misstep would have meant a fall of 50 feet, witnessed by hundreds who were traveling in the 34th street ferry Thursday afternoon, one man received a shock or injuries which resulted instantly in his death.

The combatants were Fred Moon, a laborer, who died, and Patrick McAssey, an engineer. The place of the fight was along a narrow footway of the superstructure which is used as a coal hoist at the foot of East Twenty-fifth street.

McAssey, it is said, started for the laborer, who threw his hand back to his hip pocket as if to draw a pistol or a knife. McAssey's fist reached him on the point of the jaw before he could do anything else and fell full length to the boards. He was up in an instant, however, and the men clinched.

Both were of equal strength and injured to great heights. They fell on the footway, hardly more than four feet wide, writhed and twisted in an attempt to get the upper hand.

An instant it would appear as if one or both must plunge over the edge, but with a desperate effort they would roll to safety. Once it seemed as if Moon's body was half over, but he managed to struggle back. Another time he turned the engineer, and it looked as if the fall would come then. They got to their feet, and McAssey again reached the vulnerable point of the other man's jaw.

From that he recoiled and again fell. He lay for an instant, but recovering himself started to walk away, signifying that he was beaten. McAssey stood still. In other moment he had rushed forward, with his fellow employee, for Moon, who had walked on a few feet when he dropped flat on his face. He was dead when they reached him.

McAssey, declaring that he had not intended to kill the man, was placed under arrest. Dr. McCord of Bellevue Hospital said afterward that it will require an autopsy to show whether the man's skull was fractured by the fall when he was struck or death had come from some organic weakness.

Shake off the grip of your old enemy, Nasal Catarrh, by using Ely's Cream Balm. Then will all the swelling and soreness be driven out of the tender, inflamed membranes. The fits of sneezing will cease and the discharge as offensive to others as to yourself, will be cured when the causes that produce it are removed. Cleanliness, comfort and health renewed by the use of Cream Balm. Sold by all druggists for 50 cents, or mailed by Ely Bros., 55 Warren Street, New York. mwf-tf

If you want the best quality of Carbon Paper at bottom prices, buy it at the Advocate office. 1-22-tf

OPTICAL DEPARTMENT

At Haynes Bros. Has Been Fitted Up With the Very Latest Electrical Apparatus.

Haynes Brothers, the popular jewelers of the North Side, have just made a new departure and one that will be greatly appreciated by patrons of the store. Heretofore there has been no privacy in the optical department and patients have been exposed to view of all who entered the place. Realizing the importance of privacy in this department, the enterprising proprietors of the store have removed the old work room in the rear of the store to the basement, where a large room has been fitted up with all modern and up to date machinery and conveniences used in a first class jewelry repair shop, and where four expert workmen are constantly employed in manufacturing jewelry and doing repair work. The old work room on the first floor has been converted into a first class optical parlor, which has been fitted up with all the latest electrical apparatus used in this line. The decorations of the room are of dark green, and while the light is greatly subdued, yet with the bright light in the testing charts, they are enabled to fit the eyes with the utmost accuracy. Everything is so arranged and constructed that all the attention of the patient is concentrated and attracted to the particular work of having the eye well fitted. The Haynes Brothers are also receiving a big stock of spring novelties in jewelry and will soon have something nice in this line to show their patrons.

King Carlos of Portugal, an artist of considerable ability, usually sends his paintings as gifts. One recently presented to the king of Italy is so executed that in one position it represents a sunrise on the sea, but, if turned around, becomes a sunset on the plain.

GRANVILLE NEWS

Granville, O., March 2.—Mr. Rees Butt, who is 72 years old, and who makes his home with his daughter, Mrs. Mary Boyd, in Alexandria, was in town several days ago. This was Mr. Butt's first visit to Granville in 17 years, notwithstanding the fact that his home is only six miles distant. For the first time in his life Mr. Butt saw an electric street car and was greatly surprised. The old gentleman formerly resided in Johnstown.

Before contest for Granville High school students on Saturday, March 10, at the Granville Opera House, Prof. Edward Amherst Ott will deliver his famous lecture "Sour Grapes." From the best synopsis written from memory by a high school student the lecture course committee will present an autograph copy of Ott's popular character novel, "Philip Gerard."

Chas. "Pelow" Weston, who has been in Pasadena, Calif., for the past two years, has returned to Granville. Mrs. Will Morgan, who has been seriously ill for some days, is improved at this writing.

This evening the local High school basketball team will meet the East High school of Columbus. The Granville boys have been playing some interesting games, and put up a clean, fast game, deserving of the proper support from the public. The game is to be played in Cleveland hall, and will begin promptly at 8 o'clock.

Morris K. Parsons of Salt Lake, Utah, was in Granville the fore part of the week, visiting at the home of Dr. A. K. Follett. Mr. Parsons has been in Washington as a delegate in the interest of the cattle men of the west. Mr. Parsons was at one time a resident on Centerville street.

Walter Livingston was initiated into the Beta Theta Pi fraternity on Wednesday night with the impressive ceremonies of that fraternity. After the initiation a splendid banquet was partaken of, and toasts were responded to by a number of those who were present.

Miss Della Wright of Springfield, who has been visiting friends here for some days, has returned home, having had a very enjoyable visit.

Dr. E. W. Hunt, president of Denison university, who has been in California for several weeks, has returned home.

D. E. Thompson has purchased of the Granville Building Association the property of the Kyle house, now occupied by Byron Evans.

John Owens has purchased the Mrs. Fidelity F. Rose property on North Mulberry street.

Mrs. Della L. Williams, corresponding secretary of the Woman's Home Missionary society, will speak at the M. E. church Sunday, March 4, at 10 o'clock, in the interest of Home Missions, and "Our Silver Offering." All are invited.

Sunday evening the University Glee club will sing at the Presbyterian church.

A number of the students of Denison university are contemplating a trip to Niagara Falls, and will make the trip providing reasonable rates on the railroads can be secured. Those making the trip will be accompanied by Prof. Carney.

Grand Jury in Session.

Boise, Idaho, March 2.—The grand jury at Caldwell began its investigation of the assassination of former Governor Steunenberg. Harry Orchard was taken from the state penitentiary to Caldwell in custody of Sheriff Nichols and Deputy Warden Smith. Orchard was not manacled. The first witness called before the grand jury was Detective McPartland. No attorneys for the defense appeared at Caldwell. The crowd in the vicinity of the court house was not large and there was a decided lack of local interest shown.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It is the great medical triumph of the nineteenth century, discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, urea and troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in many ways, in hospital work, in private practice, among the helplessly poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty cent and Home of Swamp-Root dollar sizes are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

STOCK COMPANY IS NOW COMPLETE

EMIL KOHN WAS TWELFTH NEWARK MAN TO TAKE STOCK IN BASEBALL CLUB.

Street Railway People Present Unusual Argument for Demand for Big Percentage.

A second meeting of the Newark baseball club was held Thursday night in the office of City Auditor Maurath. But little business was transacted. The chief topic of conversation was the advisability of detaching the secretary and business manager to sign a contract with a pitcher whose reputation will place him among the top-notchers of the O & P league. In all probability this man will be signed. The secretary refused to give out the man's name, but says he will be the best man in the league.

A conference was held a few days ago with Manager Gibbs of the traction lines regarding the new baseball park. The railroad management is desirous of signing a contract with the baseball people to play at Idlewild park. Manager Gibbs said:

"We have to have baseball at Idlewild park in order to protect our investment. The baseball proposition was a losing proposition at Idlewild park by a few hundred dollars, but we were able to make up the amount by the increased traffic on the street car lines."

One of the stockholders in the baseball club took up the argument at this point and made a proposition to the company.

"If the baseball business was a losing proposition for you, let us take the ball park off your hands and you will have the increase in the street car traffic without any trouble or expense in connection with the operating of the park."

This was received with a look of dismay by the traction people and turned down flatly. "We must protect our investment at Idlewild park," said Manager Gibbs.

Two other locations for ball parks are being considered and no definite action was taken by the stockholders last night. A new stockholder was received into the company and the entire issue of stock has now been taken up. Those holding stock in the company are the following: J. R. Moser, Dr. J. G. Bowers, J. W. Rutledge, C. A. Smith, S. K. Hayes, C. L. V. Holtz, W. W. Maholm, O. A. Vogelmeier, C. M. Brown, F. T. Maurath, Phil B. Smythe and Emil Kohn.

Another meeting will be held Sunday afternoon when action will probably be taken regarding the location of a new park. The time is getting short for this decision as it will soon be time for the work of grading to commence. Reporting day is only a few weeks off and the players will necessarily have to have some place to practice.

CHAMBERS MAY GO TO SPRINGFIELD

Denison's Crack Pitcher Will Start Professional Career in Central League.

Boyd Chambers, the crack Denison pitcher who has made name and fame in Ohio, will probably play professional ball with the Springfield club of the Central league. Mansfield was after him hot footed and offered him a good berth with a handsome salary attached, but he spurned the offer and it is announced in Mansfield that he accepted the Springfield offer.

Chambers had offers from numerous clubs in this part of the country. One of the club of the Outlaw league counted him for several weeks, but Chambers wisely concluded to start his professional career under the protection of a National agreement club. Cap. Hayes once said he had Chambers under contract, but that was during the time that Newark magnate was smoking an especially bad brand of Havana.

Chambers was not in Granville when an Advocate man called Friday morning, but a friend of the crack pitcher stated that it was his belief that Chambers would sign with Springfield. He knew that Chambers had offers from this club but said that he had not yet signed up with them.

All kinds of blank books in stock or made to order at the Advocate Book Bindery.

Austrian Consuls Meet.

Cleveland, O., March 2.—A conference of the Austro-Hungarian consuls of New York, Philadelphia and Cleveland was held here. It is said the meeting was occasioned by the organization here this week of the National Association of Hungarians, which is proposed for the movement of freedom for Hungary. The conference here was held at the local consulate and it is believed to have been called on orders from the Austrian government to deal with the Hungarian movement which crystallizes into the formation of the national organization here.

Crimpy a "Barrel Magnate."

The arrest of "Crimpy" Frazier a few days ago for the theft of a barrel from the Standard Oil company brought out an amusing story in which "Crimpy" was the star. It seems that the barrel industry of the city is one of the small industries which in the end amounts to a large business. Frazier is one of the magnates of the barrel industries and a short time ago he appeared at a well known lumber yard and offered two barrels for sale. They were purchased and "Crimpy" remarked that he would have another in a short time. The barrels just purchased were put in one corner of the yard quite a distance from the office. In a few moments, the office man glanced out in the yard just in time to see "Crimpy" making off with another one of their barrels. It developed that the lumber man had been buying his own barrels. This is an old stunt of "Crimpy's." His fame as a dealer in barrels has spread all over the city.

AMUSEMENTS

SATURDAY MATINEE AND NIGHT.

Elmer Walters' temperance play, "A Millionaire Tramp," which has met with much genuine success during the past five years is booked to appear at the Auditorium Saturday matinee and night. This comedy drama has many odd characters that appeal to the theater goers, the scenes are natural and the dialogue is said to have been handled in an extremely clever manner by the author. "A Millionaire Tramp" bids fair to outlive the majority of its imitators for the reason that the plot of the play appeals alike to railway and parquette. Jay Pierpont, the name assigned to "A Millionaire Tramp" has not graduated from the ranks of the husky vendeville hobo, he is a gentleman of culture who downfall was directly caused by a broken heart and fast company in

year and a half is the strongest evidence that could be given as to the power and charm of his plot. Mr. Walters and Kirtle La Shelle, in dramatizing the story, made every effort to faithfully preserve the unique values of the book, and, that they succeeded has been demonstrated by the marvellous success of the play in New York and other cities throughout the country. It ran for five months at the Manhattan theater, drawing crowded houses at every performance.

CURRENT THEATRICAL NEWS.

A new name has been given to the lower and charm of his plot. Mr. Walters and Kirtle La Shelle, in dramatizing the story, made every effort to faithfully preserve the unique values of the book, and, that they succeeded has been demonstrated by the marvellous success of the play in New York and other cities throughout the country. It ran for five months at the Manhattan theater, drawing crowded houses at every performance.

DUSTIN FARNUM, AS "THE VIRGINIAN."

which John Barley Corn played an important part.

THE VIRGINIAN.

The sale of seats for "The Virginian" which will be seen at the Auditorium Wednesday evening, opened this morning with a rush. It is a long time since any theatrical attraction has awakened the real interest that is unmistakably felt here regarding this dramatization of Owen Wister's stirring novel. The fact that the book has had a bona fide sale of nearly 300,000 copies in less than a

McDonald, Felix Rancy, Belle Bergen and a quartette of Lowrie.

The production this year by the Boston Cadeis will be used for professional presentation by Klaw & Erlanger. The piece was from the pen of R. A. Barnett as have been all of the Boston Cadeis productions. It has been called "Mrs. Pouchontas," and although all the characters are Indians, the extravaganza character of the creation has then in appeal in modern dress. Mr. Barnett, it will be recalled, is the author of "Jack and the Beanstalk," "Forteen Ninety

SORES-ULCERS THE BLOOD DISEASED -SYSTEM DISORDERED

When a Sore or Ulcer is slow in healing it is the best evidence of a diseased condition of the blood and a disordered system. They show that the bodily impurities, which should pass off through the natural channels of nature, are being retained in the system from some cause. The blood gathering the waste matter becomes thickened in poison which finds an outlet through the Sore or Ulcer, keeping it inflamed, painful and festering. As the blood constantly discharges it, poison into these places, they cut deeper into the surrounding flesh and tissues, growing larger and more offensive in spite of all treatment. It can do until the entire health is affected. Wounds, sores, poisons and such treatment are desirable for the reason that they are cleaning and helping to remove the poisons, but they are in no way curative. The blood is filled with poisons, and until it is removed the sore cannot heal. S. S. S. is the only cure for these evidences of impure blood. It goes down to the seat of the trouble and cleanses the circulation of all poisons and impurities. S. S. S. enriches the blood and restores the different members of the body so that the system and nature itself do the work. It is a natural remedy, and the more it is used, the more it is found to be a cure for all blood diseases and all the ailments that result from them.

S. S. S.

PURELY VEGETABLE.

It is a natural remedy, and the more it is used, the more it is found to be a cure for all blood diseases and all the ailments that result from them.

Prepared by J. C. Smith, St. Louis, Mo.

Tan" and other hits of that kind. The arrangement of falsehood and artificiality in human sentiment which takes place in the great scene of "The Walls of Jericho," the society satire which James K. Hackett and Mary Manning are presenting this spring, is attracting much discussion. Several magazine articles have been written about it and the newspaper comment is widespread.

A protest has reached Olga Netherstone from the Women's Clubs of Pittsburgh asking her not to enact "Sappho" in that city. They are willing, however, to have her give "Magda," "The Labyrinth," "The Second Mrs. Tanqueray," and other problem plays in her repertoire.

The critics of Chicago are abundant in their praise of the delineation by J. E. Hodson of "The Wandering Jew," which character that actor impersonates in Klaw and Erlanger's production of "The Prince of India." Thomas Jefferson, who is soon to appear in "Rip Van Winkle" has engaged Ralph Ince as a leading member of the supporting company. Mr. Jefferson will use the version of "Rip Van Winkle" made famous by his father.

BY A WOMAN

Chicago Constable Shot and Killed. Story of Police.

Chicago, March 2.—Constable Joseph Fleis was shot and instantly killed by Mrs. Lawrence Baker while he was attempting to levy on some property in her home. Fleis, according to the police, did not read the warrant for the execution of the levy, but attempted to force his way into the Baker home. Mrs. Baker after attempting vainly to keep him out, ran to a bedroom and secured a revolver. She fired one shot at Fleis just as he was entering the room, and the bullet penetrated the heart, killing him instantly. Mrs. Baker was arrested.

Free

Take Advantage of This Offer Before it is Too Late

Any person sending to Father John's Medicine Laboratories, Dept. 258, Lowell, Mass., a two-cent stamp, will receive six beautiful engravings showing the most famous Cathedrals of the world with a sketch of each. These engravings will be entirely free from advertising matter.

The above offer is made to advertise Father John's Medicine. It cures colds and coughs and all throat and lung troubles. Not a patent medicine, contains no alcohol or injurious drugs. Physicians, druggists and public institutions everywhere use and recommend it. Fifty years in use. Sold in Newark at City Drug Store.

Buy your blank books for 1906 of the Advocate Printing Company. Books of special rulings made to order on short notice.

THE W. C. T. U.

At the Tuesday meeting, Feb. 27, quite a crowd gathered in the Congregational church at 2:30 o'clock. This meeting was conducted by Mrs. L. N. Wilson in a most acceptable manner. After which Mrs. Shepardson spoke in a very interesting manner on temperance and intemperance.

On Tuesday of next week our meeting will be held as usual in the roomed place at 2 o'clock. This will be a business meeting and all officers and superintendents are expected to be present with their reports.

What he lost, by a reformed drunkard, I have been thinking since I came into the meeting tonight about the losses I have met with since I signed the temperance pledge. I tell you there isn't a man in the society who has lost more by stopping drinking than I have.

Wait a bit till I tell you what I mean. There was a nice job of work to be done in the shop today, and I was called for me. Give it to Saurer, says he, he's the best hand in the shop.

Well, I told my wife at supper time, and she says: "Why Laurie, he used to call you the worst. You've lost your bad name, haven't you?"

"That's a fact, wife," says I, "and I ain't had five last in the last six months, either. I had poverty, and I've lost them. I had an old ragged coat and a shoddy hat, and some water-proof boots that let the water on at the toes as fast as they took it in at the heels. I've lost them. I had a red face and trembling hand, and a pair of shabby legs that gave me awful trouble now and then. I had a habit of cursing and swearing and I've got rid of that. I had an aching head and a heavy heart, and worse than all, a guilty conscience. I thank God I've lost them all!"

Then I told my wife what she had lost. "You had an old ragged gown," says I, "and you had trouble and sorrow, and a poor wretched home and plenty of heartaches, for you had a miserable drunkard for a husband. Mary, thank the Lord for all that you and I have lost since I signed the pledge."

Official Courtesy Unappreciated.

Young Policeman cunning in old offender—Mind the step there. Old Offender (secretly)—Garn wif yer? I knowed these here steps afore you was born.—Tatler.

At a slim itching is a temper-tester. The more you scratch the worse it is. That's the motto of our city and county—by slim itching. At all drug stores.

OPPORTUNITY FOR INVESTORS

Marietta Men Here for Few Days in Interest of Colorado Gold Mine.—Those interested invited to call at Long's Office, 32 1-2 South Side of Square.—Specimens, Maps, References, Bonds and Other Valuable Information Free to Local Investors.

Dr. C. H. Smith and Mr. H. O. Goodrich of Marietta, O., have just opened an office with Mr. Long, 32 1-2 South side of the square, for the purpose of presenting an attractive Colorado mining proposition before the people of Newark. They have a large collection of minerals, a microscope, maps and other data giving details of their proposition, and bring to the city the best of references from some of Marietta's banks and leading citizens.

They desire to have people who have a small or large amount of idle money to call and investigate their offer which gives Newark investors an exclusive opportunity.

The Emma Gold Mining, Milling and Leasing Corporation of which Dr. Smith is the president, is backed up by a quarter of a million treasury stock. Dr. Smith says:

"We have begun developing this great property and driving at great depth tunnels for two years. Every foot of work, every dollar spent upon it, has been steadily advancing its value for the past 24 months. All this has been done in the past and the company has been so successfully financed that it is fully prepared to thoroughly develop its original property."

In spite of this investors can today step in and take advantage of this great accumulation of assets without any extra cost and without having had to invest one dollar during his great wealth gaining period. In addition to this there has just been added this property with this rich mining strike, a mining proposition which with both only is estimated at \$750,000.

The main workings of this property are now in the Shilling Ball claim. The output from the mine has been in the neighborhood of 400 tons, show values from two ounces to 30 ounces, 2,500 ounces in gold to the ton. At many points of ore is taken all along the line of the tunnel the ore will unquestionably be very rich and in large quantities. This mine is in such condition that dividends can be reasonably early date should be experienced, and the development will be carried along with all speed. The Richmond shaft is well equipped with boiler, hoist and compressor.

These properties, both the original Emma Corporation's holdings and the later acquired shaft, are well under development, as is explained by the fact that Fortune Dike tunnel is in good ore. More than two years have already been spent in developing this property, and the results show clearly what the company's after-immense bodies of ore.

The plant installed on the property is in keeping with any large mine or shaft proposition. A large, modern air compressor, capable of keeping half a dozen machine drills in operation, makes it possible to accomplish wonderful results with a small force of men.

The forces that have worked a very day for two years, have succeeded in proving beyond dispute the value of this enterprise. This stock is secured by bonds against loss.

These properties are located on the same ledge in the Northern Gold fields of Colorado, acknowledged by mining men everywhere to be equal to any of the richest mining camps in the world—up in the main range of the Rockies up where Walsh and others wisely admonished the prospectors to look for values. There are no other properties more likely located in the entire west, and none has better facilities for making and saving money.

This is to let it be known, that The Developing and Investment Co., of the United States, (capital \$5,000,000, Cincinnati, O.) has issued gold bonds to this company guaranteed by bonds of the Middlesex Banking Co. of Middletown, Conn., or other equally good securities (30 years in business) and held by J. P. Ward of the Building and Loan Co., trustee, and kept by him in the Citizens National Bank of Marietta.

With your stock guaranteed by these bonds, for which it is exchangeable after the first year, and which the guaranteeing company will buy at cash value within five years, if sale is desired, what better investment could be asked?

This sale is limited to 50,000 shares, 25 cents per share, the purchaser of 350 shares for \$100, to receive a gold bond of equal value as security against loss. In your purchase.

The office at 23 1-2 South Park Place, will be open for a few days. All who are interested are invited to call there and investigate at once. This proposition is worth looking into.

DESPERATE BATTLE

Put Up by the Bandits Who Robbed the Russian Bank in Finland.

Helsingfors, March 2.—More lives were lost in the pursuit of the bandits who Monday killed the guardian of the State bank here and escaped with \$25,000. Two of the robbers were cornered at Tammerfors. One of the fugitives got possession of the town hall and held it for hours, but finally was subdued by a stream of water directed by the firemen. While Commissary of Police Balushin was examining the two captives, one of them grabbed a revolver from the belt of the chief of police and with it killed Balushin. The bandit then dashed upstairs, where he barricaded himself in a room. There he defied the police for three hours. Firemen were called out and poured a flood of water into the window. Simultaneously a picked band of police and firemen stormed the stairs. One of the assaulting party was killed and nine were wounded before the bandit, who fought desperately with a big knife, could be overpowered. The robber, who is a Dorpat blacksmith, boasted of membership in the Baltic revolutionary committee and said the robbery of the Russian State bank was committed to swell the revolutionary war fund.

CAUSE LOCAL

Another Story of the Recent Attack on Missionaries in China.

Shanghai, China, March 1.—Another story of the recent attack on foreign missionaries at Nanchang, a city of 1,000,000 inhabitants, has been received: Fifteen Methodist, twelve English Protestants and fourteen French Catholic missionaries were in the city last Thursday night when the French Catholics had a quarrel with an official over a suit for the possession of property. Great excitement prevailed Friday. A mass meeting was held Saturday and was followed Sunday by a riot, during which the property of the Catholics was burned. The Protestants took refuge in the adjoining house of Mr. Kingman. The house was burned and six priests and two of the Kingman family were killed. The Chinese governor attempted to check the rioting and rescue the missionaries. The men of the Methodist mission took refuge in midriver in a launch, which was furnished by Chinese officials. Chinese could have blocked the passage of the launch during the twelve hours' journey down the river, but they were friendly. The cause of the riot was local, Chinese objecting to priests exercising civil functions.

TUNS OF POWDER IN EXPLOSION

Watchman is Missing, Supposed to Have Met Death When Magazine Let Go.

Lancaster, Pa., March 2.—A powder magazine stored with 100 tons of powder and dynamite, belonging to A. S. Kishbaugh & Co., railroad contractors, located near Safe Harbor, blew up this morning. The explosion was terrific. A watchman is reported missing and the property damaged to buildings in the vicinity is heavy. In that city, 12 miles distant, houses shook as if by an earthquake. The cause of the explosion is unknown and is being investigated. The magazine was located in a deserted spot, which saved the loss of many lives.

Fire caused by the explosion of a gas stove destroyed the storage and distributing plant of Armour & Co. in Chicago. The loss is estimated at \$150,000.

Thomas at Middletown, Conn., destroyed old Northern college, Wesleyan university.

NIGHT SESSION

MAY BE HELD BY COURT IN BEN DICKERSON CASE TO GET A JURY.

Third Venue Ordered and Examination of Talesmen Beginning at 2 p. m. Friday.

Coshocton, O., March 2.—(Special to Advocate).—The second special venire was exhausted this morning in an effort to secure the twelfth juror, which would complete the panel to try Ben Dickerson for a Monday. Judge Eason ordered a third venire of sixteen names, and the examination of these talesmen began at 2 o'clock this afternoon. If the last juror cannot be secured this afternoon, a night session will be held.

The completed jury will be taken to the scene of the murder on Saturday, and the trial, proper, will begin on Monday morning next.

Coshocton, March 2.—Court opened Thursday morning at 8:30 and was immediately adjourned until 1 o'clock, as the men of the new venire could not all get to town in time for court yesterday morning.

At the afternoon session of the court there were 21 men examined and three jurors were selected. They are Charles Kemps of Crawford township, B. O. Spingle of White Eye township, and J. H. Sunthelmer of Frensen.

Of the 11 men so far selected nine are farmers, one is a railroad section boss and one is a liveryman of Coshocton. Of the last special venire there are left seven men from which to choose the 12th juror.

It is suggested that it has taken from Monday noon till Wednesday noon to examine 36 jurors, and they are not questioned nearly as closely as witnesses will be quizzed. There are upward of 150 witnesses.

The attorneys in the Dickerson case have just received from Surveyor George Bock a fine blue-print map of the scene of the murder of Mrs. Hughes, showing the location of the homes of Dickerson, the Hugheses, James Dobson, the location of the fatal spring, the wood-lot, etc. It is complete and it is likely that the witnesses will have this map thrust under their noses many times during the progress of the noted case.

Janitor Pigman has 300 chairs in the court room now for the comfort of visitors. More than 150 folding chairs have been placed in the room in addition to the regular chairs. In fact, all room is now taken up with the seats and the capacity is at its limit. At nearly every session of the trial every chair has been occupied with several dozen people standing about the entrances.

Immediately after the recess of Wednesday afternoon Mr. Pigman started cleaning out the big hall—and it needed it, although he had it clean as a pin Monday morning.

CONCERT COMPANY

Gave a Very Pleasing Entertainment at Taylor Hall Thursday Evening.

The persons who had the pleasure of attending the entertainment at the Y. M. C. A. on last evening certainly enjoyed an excellent program by the George Crampton Concert company.

The program which was composed of a very pleasing variety was entirely satisfactory in the manner of its rendition. Miss Pettigrew in her numbers pleased the audience highly and showed excellent musical ability. Mr. Crampton proved himself an artist with a pure resonant quality of tone to his voice, and with a genuine artistic taste as to expression. His enunciation was rather faulty, but he sang with excellent control.

Theodore DeMoulin is a cellist of remarkable ability, overshadowing any cellist that has appeared in this city recently.

Mrs. Merrill at the piano played with good judgment both in her solo numbers and accompaniments.

In his announcements preceding the introduction of the evening's entertainers, Secretary A. A. Elber stated that the course this year was costing a considerable sum more than the association was getting out of it and that it had been decided that the remaining seats for the next and last number of the course, the Wendling lecture, would be disposed of at 25 cents each.

General Murray Dead.

Calden, Me., March 2.—General Benjamin Bixby Murray, 76, who at one time occupied a prominent position in national affairs, died of angina pectoris. General Murray won his title in the civil war. He was appointed special agent of the United States treasury department in 1876 and later was assistant financial agent of the United States in London.

Detective Pleads Guilty.

Hamilton, O., March 2.—Detective Charles Gay, slayer of William J. O'Connell, was arraigned before Magistrate McGreevey on a charge of murder. He pleaded guilty and was returned to jail pending a hearing Monday. It has been decided to let the magistrate fix the degree of murder charged after the hearing.

Great men have many friends and many more enemies.

Comfortable Old Age

Is not a question of years, but a question of vitality and the preservation of all faculties, either by natural or artificial means. Whether young or old—for age is no criterion for the wearing of glasses—if you choose to go year after year wasting nerve force and straining your eyes thro' some defect, you must expect early decay—perhaps blindness—a natural decrease of vitality and consequent shortening of life.

Just think of it. We fit glasses for defective vision and eye-strain—that's all, but a little piece of glass will work wonders. And you can try them for ten days. "Pay when satisfied," is our motto.

MRS. JACK LONDON.

She is the Novella's Second Wife. "The Kempton-Wace Letters." Jack London, author and Socialist, who is now lecturing on "The Coming Crisis," is for a second time a bridegroom, and his new wife is a charming young woman, whose name before her marriage to the writer and lecturer

MRS. JACK LONDON.

was Miss Charnion Kittredge. His first wife, who was Miss Elizabeth Madden, is still living, but when a book entitled "The Kempton-Wace Letters" appeared and she learned that her husband was one of its authors she separated from him. The book was written by the author of "The Call of the Wild" in collaboration with a young Russian Jewess, Miss Anna Stinsky, a student at Stanford university and an advocate of Socialism, for whom Mr. London cherished a platonic friendship.

Mrs. London did not like either the sentiments of the book or her husband's friendship for Miss Stinsky and in August, 1904, secured a divorce from him in California on the ground of willful desertion. Last November Mr. London married Miss Kittredge, who is a magazine writer and a daughter of the late Captain Willard Kittredge, U. S. A., one time editor of the Overland Monthly, which accepted London's first Klondike story.

TWO WINSTON CHURCHILLS.

One an American, the Other an Englishman—Both Authors.

There is much interest in literary circles over the announcement that the Macmillans have paid to Winston Churchill for the biography of his father the largest sum ever given by a publishing firm for a work of the kind. The author got \$40,000 down, with the agreement that half the profits should come to him after the publishers have made \$20,000 from it. Churchill is being paid at even a higher rate than John Morley was for his life of Gladstone.

Some people may suppose that this is the same Winston Churchill who wrote "Richard Carvel," "The Crisis" and "The Crossing," but it is not. He is an altogether different individual.

THE AMERICAN WINSTON CHURCHILL AND THE ENGLISH WINSTON CHURCHILL.

The name Churchill is not an uncommon name, but "Winston" is, and it is a singular coincidence that two men bearing these names and not known to each other should be prominent in literature. The coincidence is further emphasized by the fact that both are novelists and politicians, are young men and were trained in the arts of war, one being educated for the army, the other the navy. The Winston Churchill who has just written a biography of his father is an Englishman, the third son of the late Lord Randolph Churchill, and his full name is Winston Lionel Spencer Churchill. The author of "Richard Carvel" is an American. The Englishman is a member of parliament, was born in 1874, has served in four wars as war correspondent for London papers, had a marvelous escape from a Boer prison in the South African war, inherited \$200,000 from an uncle and is now winning fame as an orator in the house of commons. His mother, who after the death of Lord Randolph Churchill married George Cornwallis West, is the daughter of the late Leonard Jerome of New York.

The American Winston Churchill was born in St. Louis in 1871, graduated from the Naval academy at Annapolis and for a time served in the navy, has been an editor and has served in the New Hampshire legislature. He has an artistic home at Cornish, N. H.

WATER FAMINE

THREATENED IN STEUBENVILLE BY A STRIKE AT THE WATER PLANT.

Firemen Notify the Service Board That an Additional Man Must be Hired—Ohio News.

Steubenville, O., March 2.—This city may have a water famine unless the board of public service grants the demands of the firemen at the water-works plant. An additional engine has been placed in the plant, almost doubling the firemen's work, and they have notified the board that they will quit unless a third man is employed. They also ask for an eight-hour day instead of twelve hours. The other employees will go out in sympathy with the firemen.

Bridge Combine's Motion. Bellefontaine, O., March 2.—The bridge trust ouster suit was heard in the circuit court here on the preliminary question of jurisdiction of the court. The defendant companies, fourteen in number, filed motions to quash the service, claiming that the attorney general, who brought the action under the provisions of the Valentine law, should have filed it in Franklin county at Columbus. The court took the questions under advisement.

Reservoir Case. Wapakoneta, O., March 2.—Rapid progress was made in the Shively reservoir case. Seven witnesses were on the stand. Mike Ryan, the detective, was the main witness. He testified how, under disguise of a union slugger from Chicago, hiding from justice, he struck up a friendship with Riley Colton, secured from him the details of the crime and dynamite plot and lived with him for awhile on Eagles Island in the reservoir.

Town Without Officials. Bowling Green, O., March 2.—Cygnet is in darkness, the lid is off and the town has neither a mayor nor marshal. Mayor H. A. Wigfield has gone to Lima, it is said. A. J. McDaniels has resigned as marshal at a salary of \$25 a year, to shoe horses, and the electric light company is in trouble with the people over the price of lights. Council will call a special meeting to see if new officials cannot be drafted.

Arrest in Bridge Case. Sandusky, O., March 2.—Henry Hughes of Fremont, O., agent for the Massillon Bridge company, was the first man taken into custody in the fifteen bridge men' indictments returned by the grand jury. It is expected that other arrests will be made. The grand jury found indictments against fifteen officials of the so-called bridge trust under the Valentine anti-trust law.

Physician Held. Toledo, O., March 2.—On the confession of Jack Page, one of the notorious gang of firebugs now serving a term in the Ohio penitentiary, Dr. G. W. Whitney, a former prominent citizen of Bryan, was arrested and at once indicted on the charge of arson. Whitney's indictment charges him with hiring firebugs to burn his residence in 1901 and collecting \$1,500 insurance.

Ohio Operators to Meet. Columbus, O., March 2.—Calls were sent out by F. S. Brooks, secretary of the Association of Ohio Coal Operators, for a conference of mine owners in Cleveland on March 8, to outline a policy to be pursued at the joint convention of miners and operators at Indianapolis March 19. In addition to doing this, four operators to represent Ohio on the scale committee will be named.

Robbers Escape. Dayton, O., March 2.—Robbers dynamited the postoffice safe at West Carrollton and secured about \$100 in money and stamps. The office was wrecked. The explosion shook the entire town, but the robbers escaped.

Killed by Fall Down Stairs. Chillicothe, O., March 2.—William James, aged 88, died Thursday morning as a result of injuries received Tuesday in a fall down stairs. He was in the habit of sleeping in the day and walking about at night and fell when he started to walk down the stairs at the home of his son, Zachariah James.

Will Succeed Miss Clinman. Delaware, March 2.—The board of education Thursday appointed Miss May Albright, teacher in the high school, to fill the vacancy left by Miss May Clinman, who died with Professor H. A. Stokes, Saturday. Miss Albright was selected from a long list of applicants. For some years she was a teacher of English at Ohio Wesleyan, and after a year's absence on account of ill health returned in the year.

President's Message. Washington, March 2.—President Roosevelt has asked congress to appropriate \$100,000 to defray the expenses of the delegates of the United States to the pan American congress in Rio Janeiro next spring. The members of the delegation will receive no salary, and as it is felt that they will be under heavy social obligations and will incur a great many different expenses, the president has asked for such a sum as will be sufficient for all purposes.

Austrian and German physicians have fixed on coffee as one of the causes of epilepsy.

Consults A Physician

But does NOT Tell Him All.

Few women confide fully in a physician. They simply will not tell him all. That's why many doctors fail to cure female diseases.

Every woman dreads the ordeal of the physician's consulting room. A sensitive, refined woman shrinks from the searching questions and the physical examination!

It is not so in writing to Mrs. Pinkham. Thousands of women owe their present health and happiness (yes, and their good looks, too) to the fact that they have told all their physical troubles to Mrs. Pinkham and followed her advice and been cured of female diseases.

Lydia E. Pinkham's Vegetable Compound

Cures more women every year than any other medicine in the world. If you are in doubt about your case, write in perfect confidence to Mrs. Pinkham, Lynn, Mass. You will receive in reply a personal letter of advice free. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham, and for twenty-five years under her direction, and since her decease, she has been advising sick women free of charge.

DEAR MRS. PINKHAM:—For three months I was sick in bed with female trouble and had four doctors, who all agreed that I must undergo an operation. My sister advised me to try Lydia E. Pinkham's Vegetable Compound before I submitted to an operation. I did so and am very glad to say that after I had used five bottles I was restored to perfect health, which I have enjoyed ever since. I am only too glad to recommend your medicines, as they saved me from an operation which might have proved fatal.

MRS. M. KUTNER,
556 South Main St., Los Angeles, Cal.

Mrs. Hayes also profited by Mrs. Pinkham's advice.

DEAR MRS. PINKHAM:—Sometime ago I wrote you describing my symptoms (fibroid tumor) and asked your advice. You replied and I followed all your directions carefully and to-day am a well woman.

MRS. E. F. HAYES.

Lydia E. Pinkham's Vegetable Compound Cures Where Others Fail

GAS NOTES

What is Going on in the Big Gas Field of Union Township.

The well on the Sam Dvinnay farm in McKean township, belonging to the Central Ohio Natural Gas Co., came in last Saturday morning. The drillers got about 20 feet of sand at a depth of 2160 feet, and the well is good for 3,000,000 feet of gas per day. The well is located five miles northwest of Granville, and was shot on Sunday. Mr. Dvinnay was in town this week receiving the congratulations of his many friends. All of the larger companies, Logan, Ohio Fuel and Mr. Everett, have large blocks of land leased in this vicinity, who have plenty of gas and it is not likely the territory will be developed very fast. This well would not have been drilled just now had it not been for a contract Mr. Dvinnay had with the Central Ohio when he leased—Granville Times.

The Columbus company is only working one string of tools in Union township at present, but we are told it will put in several more this spring.

There have been several gas leakers in town this week, since the Dvinnay well came in. There are only a few farms in this locality that are not leased.

The gas well on the Smith farm near Granville, owned by the Ohio Fuel Supply company, was shot last week, and the well is "doing" one half million.

There are now sixty wells in the Union township field and the companies owning them are the Columbus Natural Gas company, H. Hovey company, Dr. Ohio Fuel Co.

The tubing in the Hanks well in Union township dropped in last week and the Columbus company is now not leased.

THE BEST COUGH CURE

No cough is too trifling or too serious to be treated by the right remedy, and the right method is the use of the best cough cure, which is

Kemp's Balsam

This famous preparation cures coughs, colds, bronchitis, grip and consumption in its first stage. Irritation of the throat and bronchial tubes is immediately removed by the use of Kemp's Balsam.

Sold by all dealers of etc. and soc.

putting up a derrick to clean the well and make the repairs.

Two of Mr. Heisey's wells on the Baker farm in Union township have been flooded with salt water for some time and last week they were bailed out. After one of the wells was shot, there was no gas in it for three days, but it is said to be getting gradually stronger. When they came in they were good for three millions.

It is reported Mr. Heisey is looking for a location for a new pumping station in Union township. Parties have been looking at land in the northeast part of the township along the creek for this purpose.

FOR TRAVELERS

and those who find it not convenient to use FATHER WILLIAMS' INDIAN TEA, will receive the same excellent results from using FATHER WILLIAMS' INDIAN HERB TABLETS. They are made from the same pure herbs, and are a mild laxative but not a racking cathartic.

For CONSTIPATION, SICK HEADACHE, INDIGESTION, DYSPEPSIA, SICK STOMACH, BILIOUSNESS and MALARIA, they will be found in valuable. They are positively the best LIVER REGULATOR known. 25 doses, 20 cents; 50 doses, 35 cents. W. A. Brown & Son, Third St. and Union and W. Main streets.

DAVES IS ACTIVE.

Congressman Benjamin Daves of the Zanesville-Marietta district, opposed the bill to incorporate the Lake Erie and Ohio river ship canal company. This proposed canal is to run from Cleveland to Dresden along the line of the old Ohio canal which would make a continuous line from the lake to the Ohio, but he wholly withholds his own people and does not want business diverted to another state.

OSGER'S MOTHER.

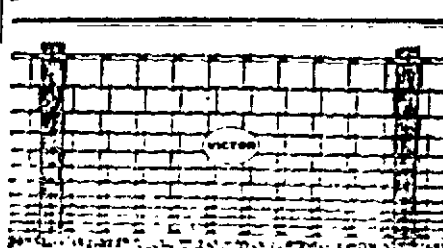

Mrs. Osger, mother of Dr. O. B. Osger, formerly of Jones Hospital, is nearly 90 years old. Besides the Oxford robes of she has three sons who are prominent in Canada. One is a member of parliament; another is a judge of the court of appeals; and the third is one of the best known lawyers in Canada.

You can bank on this statement—The more you know about our kind of clothes, our prices, and our business methods, the better you'll like us.

GEO. HERMANN
CLOTHIER
NO. 5 WEST SIDE SQUARE.

MRS. MIZNER

HAS TAKEN HER YOUNG HUSBAND BACK TO HEART AND HOME.

And Will Impose Implicit Confidence in His Dictation of the Disposal of Yerkes Trusteeship.

Chicago, March 2.—Mrs. Wilson Yerkes Mizner, sprightly as a school-girl, and replete as a statesman, came to Chicago Thursday at noon. She spent two hours in secret conference with the attorneys of the Yerkes estate. She passed four hours dodging and running away from the newspaper men and curious people.

The most remarkable known fact about this remarkable woman's visit is that up to midnight Thursday she had not uttered one word for publication.

Wilson Mizner came to Chicago today.

Mrs. Mizner's arrival was followed quickly by indications of trouble over the Yerkes estate, which may or may not be settled before the will appointing \$15,000,000 comes up for probate on March 15.

The widow-bridge, who has shown her temper and her will in ousting and reclaiming her young husband, rushed from the train straight to the business conference with the lawyers and there asserted herself without any other aid than her secretary.

Oswald's request that Mrs. Mizner resign and permit him to be sole executor of the \$15,000,000 estate was overruled by the widow-bridge. It is reported.

Mrs. Mizner will act as co-executor of the will and protect her own interests if she decides to accept the terms of the will, though she may refuse the bequest of \$200,000 in cash and a life income from \$7,500,000, and bring suit to secure her dower right of \$5,000,000.

The young husband will decide it all, and is the key to the situation, as Mrs. Mizner now reposes entire confidence in him, although the Yerkes faction resents any intrusion by him.

LICKING MINING COMPANY MAKING RAPID PROGRESS

To Equip the Property With Adequate Machinery to Develop Our Local Gold Field.

The new managers of the Licking Mining company are making rapid progress toward completing arrangements for operating the gold field as early as spring weather will permit. The reorganized company has had many difficulties to overcome, but this is being done as rapidly as possible with highly satisfactory results. All who have given the matter any attention know and realize that our local gold field needs expensive machinery to make the required development. The little test that was made last fall just previous to the freezing weather by the temporary or experimental machinery that was gotten into operation demonstrated to the satisfaction of the new managers and promoters that gold can be extracted from the gravels there in sufficient quantity for large profit by the application of proper machinery and equipment.

Sufficient means to procure and install this machinery is practically an assured fact, say the new managers, and this news will be particularly satisfactory to those of our own people who are anxious to see the results of a proper test of the Licking county gold field.

"I have been somewhat positive, but don't forget, I've just the results decided. They get ready and regulate the bowels perfectly," George B. Krause, 24 Walnut avenue, Altoona, Pa.

"AH DON'T WANT NO WHITE MAN"

Says Sarah Jones, Colored, Who Advertised for a Husband and All Applicants Were White.

Chicago, March 2.—Mrs. Sarah Jones, a negro, 45, well to do proprietress of two boarding houses and a widow for the last three years, becoming homesick, inserted the following in the paper Thursday.

Wanted—A husband, between 40 and 50, not afraid to work.

Unfortunately she forgot to mention that no white man need apply, and all day long the bell kept "ringing for Sarah."

A score or more of applicants for the position of husband called at her home every man of them being a Caucasian.

Sarah said: "Ah don't want no white man. Ah want a culd man and one who knows how to work. Dem white men wuz all nice gemmen, but Ah done told 'em Ah wants a culd man. Ah wants a husband awful bad, but Ah don't want no husband dat ain't no 'count. I use done with dis no 'count trash."

CRUELTY

CHARGED AGAINST CHICAGO UNIVERSITY PROFESSOR IN VIVISECTION.

Young Cocks Sat Shuddering For an Hour, Witnessing the Torture of Animals.

Chicago, March 2.—Charges that unnecessary cruelty is shown in the vivisection experiments conducted by an assistant professor of the physiology department of the University of Chicago are made by students who attend the classes. Three young women are among his pupils.

The instructor is accused of failing to use anesthetics where the lack of them causes the subjects of experiments torture. The young women of his classes are the loudest in complaints.

An unusually painful operation was described by a medical student as having been performed on a cat. The professor, in order to explain the reflex action of the nerves, severed the spinal cord at the neck, using a bone chisel for the operation. According to a member of the class no anesthetics were used.

The spinal cord having been severed the cat was left to suffer during the hour of the recitation. In order that the learned doctor might demonstrate whether reflex action of the nerves might be obtained while the spinal cord is severed.

The three young women pupils were compelled to watch the operation on the cat in order that they might not miss any of the technical points of the effect on the cat's nervous system, as the knowledge is required for a degree. Throughout the hour the cocks sat shuddering.

On another occasion he scalded the feet of a cat to see what effect the scalds would have on the nerves of the animal. Another experiment was done with a dog, in which the skull of the canine was opened with the use of a bone chisel. The brain being laid bare, the professor probed the brain to see the effects of stimulants on the nervous system.

SKELETON FOUND BY SMALL BOYS

UNDER DEBRIS OF AN OLD LOG CABIN ALONG THE CANAL.

Several Theories Advanced as to How the Human Bones Came to be Deposited There.

Several small boys who were playing in the rear of the new building recently erected on the site of the old Sites and Kellenberger mill, on South Second street, were much alarmed by the discovery of a human skeleton under the debris of the old log cabin which has been partly torn down by the owners in order to make room for an extension to the new building.

The skeleton which was that of a man, although well preserved, bore evidence of having been in this place for a long time, the bones being separated and disarranged.

The boys naturally became much excited by their uncanny find, and the facts of the discovery were made known to the police. Captain Bell several hours afterward went to the spot indicated by the boys and others who knew of the discovery, and found that the skeleton had been removed. It is supposed that some doctor of the city upon learning of the find, made haste to gain possession of it.

Considerable interest is added to the finding of the skeleton, by the fact that the cabin under which it was found was one of the first buildings to be built in Newark, its history dating back to the year 1824. The building was first used as a home and later became a headquarters for the boatmen while they were stopping here. Later it was weather-boarded and still at another time plastered and otherwise modernized.

No one is able to say in what manner the body came to be in this place although several possibilities are advanced. It would have been an easy matter for some person, possibly a drunken man, to find a way into the cellar under the cabin and become seriously ill, not being able to call for assistance. Again, the finding of the remains in this out of the way place may mean the first knowledge of some desperate crime taking place at a time when the city was very young. Serious brawls were more frequent in those days than now, and especially among the traders and boatmen on the old canal.

The discovery is of course a mystery, and one which will never be uncovered, especially as there was no property of any sort found near the skeleton.

UNEARTH MORE LAND FRAUDS.

Fifteen Forged Certificates of Oregon Property Turn Up in Salem.

Salem, Ore., March 2.—Fifteen forged land certificates of Oregon school lands were presented to the state land department covering 4,800 acres of land in southern Oregon. These certificates purport to have been issued in 1902, and are presented in behalf of Frank T. Toland of La Crosse, Wis. Toland, it is alleged, was brought out from Wisconsin by the defendants in the recent government land fraud trials at Portland to controvert the evidence of the prosecution. It is understood here that the certificates were given Toland to recompense him for expenses to his appearance at the trials.

CAPT. JAMES H. SMITH

Also Has a Vivid Recollection of the Fire at Old Newark Corner Away Back in '44.

Captain James H. Smith, who is one of Newark's oldest and best known citizens, called at the Advocate office on Friday and said he read the article printed in Thursday's Advocate regarding the fire which nearly destroyed the old Newark building, corner of Third and West Main streets in 1841, with a great deal of interest. He says that at that time he was a young man aged about 18 years, and slept in the room over his father's (Jesse Smith) shoe shop, "The Golden Boot," which was located where Wolant's bakery is now situated on Third street. He has a vivid recollection of all the circumstances connected with the fire, and says he was the first one to arrive on the scene. When he first reached the building he says that the place was on fire in four or five different places, and that he extinguished one of the fires by obtaining water from the rain spout, it raining very hard at the time.

Steamboats to Start.

Zanesville, March 2.—With the coming of better weather, for it is earnestly believed that the cold winter weather is over, navigation on the Muskingum river is being resumed. The regular steamboats plying the water south of the city have again started and during the next few weeks it is believed the smaller craft will be seen again on the stream.

A GUARANTEED CURE FOR PILES itching, Blind, Bleeding or protruding Piles. Druggists will refund money if PAZO OINTMENT fails to cure you in 6 to 14 days. mwf

Wouldn't You

Like a Nobby

Spring Top Goat?

We can supply it—a dandy too—for a more favorable price—quality for quality—style for style—than you can obtain anywhere else.

That is one of the great advantages of buying at the New Store which hasn't any old stock to work off and is in business for one purpose only—to sell the goods.

GET BUSY

LAST WEEK OF THE DEEPLY CUT PRICES

We have not tried to deceive you but have offered the greatest values in shoes ever offered in our community. We did this to unload our immense stock of shoes before our spring shipments were made and many people have been benefitted by it.

But we still have some great values to give you, and this is positively the last week for them. Do not wait for Saturday for it will be a busy day. Come during the week and you will be better pleased.
